CHAIRMAN'S STATEMENT

On behalf of Anxian Yuan China Holdings Limited (the "Company" and together with its subsidiaries, collectively referred to as the "Group"), I hereby present the report of the Group for the financial year 2021.

In 2020, the outbreak of COVID-19 across the globe has brought a huge impact on the international community. Society and people's livelihood have been hit hard, and all industries have been facing unprecedented severe challenges. Despite the unstable external environment, the Group still maintained a steady development. Under the leadership of the Board and guided by the Group's work plan for 2020, the Group has been moving forward in the course of adjustment, braving the storm and strengthening the growth. With the joint efforts of all employees, the Group has made new progress in various aspects of work. Given the brand under the Group had been gaining social influence, the corporate image was unprecedentedly enhanced and extended.

During the Year under review, the Group's core business developed steadily. Zhejiang Anxian Yuan, the leading flagship project, achieved another record high in operating results and successfully completed the Group's revenue plan. At the same time, Zhejiang Anxian Yuan continued to innovate, adjust product structure, and vigorously promote small and individualised land-saving ecological burial. In 2020, the objective of "rise in one and fall in the other two" was achieved by an increase of sales revenue, a decline of sales volume of tombs; and a drop in land sales. While creating characteristic landscape burial areas, the Group also stepped up its efforts in the transformation of "old burial areas" to boost the taste of cemetery products. The construction of Qian Xuesen "Danyuan" was carried out in an orderly manner. With celebrities such as Ge Hongsen rested in the cemetery, it enhanced the celebrity effect of the cemetery. The implementation of "smoke-free cemetery" and the promotion of ceremonial burial have effectively improved the environmental and service tastes of the cemetery.

The Group's Yin Chuan Fu Shou Yuan and Zunyi Dashenshan Cemeteries also demonstrated great vitality and development potential. With the establishment of the Group's mature business philosophy and management experience, Yin Chuan Fu Shou Yuan has gradually become a "garden cemetery" in the region through continuous efforts and strengthening management. It was awarded the first prize in the 2020 annual inspection of cemetery in Ningxia Autonomous Region. Yin Chuan Fu Shou Yuan actively responded to the call of the local government to build a "green, high-end, harmonious and liveable new Yinchuan" and followed the publicity for green funerals. Its ecological burials include lawn burial, tree burial, Yellow River burial, deep burial of cremains and other burial methods and ecological burial facilities, which played an enormous role in promoting the development of ecological burial in the region. The "crystalline stone flower bed burial" of the Cemetery was awarded the "Innovative Case Study Award" by the China Funeral Association. At the same time, the "Life Crystal" studio was established to provide customers with on-site, diversified crystalline stone production services, aiming to driving the transformation of funeral customs with such new funeral concept, so as to make funeral business closer to people's visions, and guide the social funeral customs to a higher and deeper level. During the Year, Zunyi Dashenshan accelerated the construction of cemetery, renovated the burial areas and increased the number of tombs. It introduced funeral and burial etiquette companies, and added funeral and burial service projects such as "escorting a coffin", "high-specification funeral ceremony" and "burial etiquette" to improve the quality of funeral and burial services and to establish a positive service brand. The Group always upholds the brand direction of "Culture inheritance, Congregation of talents and cultural relics, and Formation of ecology", and plans to shape Dashenshan Cemeteries into a benchmark enterprise in the provincial cemeteries within three years such that it will establish a leading role in the implementation of the funeral reform in Guizhou, and open a new chapter in Guizhou Province by building parks and cemeteries with green funeral and burial concepts.

The Group always attaches high importance to the reserve of management talents and professional training of service personnel, especially strengthening the training and nurture of both management personnel and service staff. The Group has formulated a scientific talent training plan. Through various types of on-the-job training and continuing education, it has comprehensively improved the overall quality of employees and continuously optimised management standards, and realised the "details, nuance, and practice" implementation of the management system, so as to promote the gradual transformation of business and management from "there is or there is not" to "good and fine". The Group has a special training course for management personnel, while attracting talents appropriately to enrich the Group's strengths and creating a working environment for the talents to play a role. The business evaluation was conducted by the Group on its subsidiaries at all levels, which gradually formed a set of unified, flexible "Anxian Member" service system and working philosophy, laying a more solid and stable foundation for the long-term management and operation of the Group.

CHAIRMAN'S STATEMENT

2020 was also a special year for the whole society, and the fight against the pandemic with concerted efforts became an important part of this era. As an industry serving people's livelihood and a place for people to gather, pandemic prevention and control were as if a final examination on the Group's funeral service capabilities. As a leading enterprise in the industry, the Group actively undertook the responsibility of people's livelihood protection services. Under the leadership of the Board, each of the Group's funeral service units solidly carried out the work of pandemic prevention and control, strived for the front line, strictly complied with the working principles of "controlling traffic, preventing gathering, strengthening protection, and ensuring safety", and commenced funeral service work in an orderly manner on the basis of optimising the funeral service process. The Dashenshan funeral department, which is responsible for funeral services and cremation, overcame difficulties and performed conscientiously on their jobs to support social stability during the pandemic and under the normal situation of pandemic prevention and control. The cemeteries of the Group also innovated services and sweeping methods, and successfully completed the reception work during Ching Ming Festival and Winter Solstice when the public would gather for tomb sweeping through diversified burial services, such as "booking burial services", "cloud burial services" and "valet burial services". In addition, the Group remained true to its original aspiration, adhered to the people-oriented business philosophy, and actively undertook corporate, social, industry, history and public responsibilities. During the Year, the Group built and opened a number of humanities memorial halls that integrating the inheritance of civilisation and remembering of sages, which further expanded the social education function as an enterprise, promoted the development of regional funeral and burial culture and the progress of social civilisation, as well as realised the innovative application of cemetery culture to meet the growing needs of cultural lives of people. For example, Zhejiang Anxian Cemetery, a subsidiary of the Group, is a famous patriotism education base in the region, and has carried out a series of patriotism education activities with all sectors of society. The remembrance and respect for martyrs are our original aspiration, which reflect the progress of forging ahead in this era, all are meant for an obligatory responsibility of the Group.

Looking forward, as one of the leaders in the burial and funeral industry in China, it is the mission of the Group to continue to promote the modernisation of the burial and funeral industry in China with its mature management experience, keen industry insight and innovative spirit of keeping pace with the times. On behalf of the management of the Group, I will continue to uphold the Group's development objectives and philosophy lasting for two decades, and work with all employees to adhere to the "people-oriented" principle in the new financial year. With an unwavering heart and forging ahead through challenges, we optimise ourselves while keeping up with the pulse of the times, continue to deepen and explore the core areas of funeral and burial business, and endeavor to realize our industrial ambition of "Touching the hearts of people in both worlds". Meanwhile, we will strive to cultivate an efficient and professional team, establish a scientific operation system in line with the new era of funeral and burial, lead and promote the progress and reform of the funeral and burial industry in China by formulating new standards for modern funeral and burial industry, return society and customers with the most professional attitude and the highest quality of services in the industry, and reward our shareholders and investors with good results.

MANAGEMENT DISCUSSION AND ANALYSIS

MARKET OVERVIEW

In recent years, with the increase in per capita income in the PRC and the acceleration of urbanisation, coupled with the government's efforts to vigorously promote the inheritance of Chinese traditional culture and virtues, and to advocate deepening the reform of funeral and burial, the funeral and burial consumption concept of the people has gradually changed, which are conducive to an expanding scale of funeral and burial industry in the PRC.

In addition, according to the National Bureau of Statistics, there were 253.88 million of people aged over 60 in 2019, accounted for 18.1% of the total population in the PRC. According to the relevant forecast, during the "14th Five-Year Plan" period, the national elderly population will exceed 300 million.

In the future, with severe aging issues, the number of deaths in the PRC per year will also show a slight growth trend, which will bring a more considerable demand for the funeral and burial industry. Meanwhile, as the national income and household consumption expenditure are on the rise, the per capita funeral and burial expenditure will also continue to increase, paving the way for a continuous expansion of the industry market scale, and the funeral and burial services tend to be of more quality, diversified development. These drivers have contributed to the increasingly faster growth of the funeral and burial industry in the PRC and its promising prospects.

BUSINESS REVIEW AND OUTLOOK

The Group is one of the earliest service providers in funeral and burial industry in the PRC. With an unwavering faith and commitment to excellence, it always provides quality, individualised funeral and burial services to each customer.

During the Year under review, under the leadership of the Board, the Group made concerted efforts to fight against the pandemic, whilst remained true to its original aspiration. The Group deeply understood and grasped the spirit of the Fifth Plenary Session, comprehensively fortified the management of the Group's individual projects, actively promoted the optimisation of service system, pressed ahead the reform as to ways of service, and enhanced the level of funeral and burial services, all contributing to a boost of senses of happiness and gain for every customer. In terms of performance, with Zhejiang Anxian Yuan as the core project, the Group's project companies maintained a good momentum of steady development and a stable layout, and planned to develop each project into a model cemetery locally. The Group will continue to explore innovation and extension based on two major products of "funeral" and "burial" in order to meet the diversified service needs of customers.

As one of the pioneers in the funeral and burial industry in the PRC, the Group closely followed national policies, adapted to industry changes, and ardently carried out green ecological funeral and burial. With the objectives of "land-saving ecological burial, benefiting and good for the people, stylish choices by making peace with ancestors in Anxian", the Group integrated various public welfare activities with its brand building. In the meantime, it has always been committed to undertaking social responsibilities and maintaining the traditional values and cultural heritage of China, and has proactively integrated the construction of cultural facilities with distinctive regional characteristics, such as cultures of tradition, red, and life to form a unique brand full of funeral and burial culture – "Excellent Chinese cultural heritage, inheriting red genes, and the unyielding spirit of the Chinese nation".

Looking ahead, the Group will continue to advocate and practise the business philosophy of "people-oriented, rooted in culture, with science as guidelines, and service provision as missions". With persistence in green funeral and burial as its core and forging ahead the progress of modernised, ecological and humanistic reformation of the Chinese funerals and burials, the Group will strive to build a benchmark for the Chinese funeral and burial enterprises, and to double harvest of benefits and brand prosperity.

MANAGEMENT DISCUSSION AND ANALYSIS

FINANCIAL REVIEW

For the Year, the Group recorded net profit of approximately HK\$81.3 million (2020: approximately HK\$52.5 million) and revenue of approximately HK\$298.7 million (2020: approximately HK\$287.0 million). The Group's earnings before interest and tax was approximately HK\$117.2 million (2020: approximately HK\$80.8 million). Increase in the Group's net profit by approximately HK\$28.8 million year-on-year was mainly due to:

- (i) the Group recorded an increase in gross profit by approximately HK\$33.7 million year-on-year. Such increase was primarily due to the sales of new types of tombs in several high-end cemeteries with higher selling price and better cost control of new types of tombs during the year.
- (ii) the Group recorded an increase in other income by approximately HK\$4.2 million year-on-year. Such increase was primarily due to (a) increase in bank interest income due to more bank balances held by the Group; and (b) increase in government grants.
- (iii) the Group recorded a decrease in finance costs by approximately HK\$1.1 million year-on-year. Such decrease was primarily due to the repayment of bank borrowings during the year.

Of the total revenue of approximately HK\$298.7 million (2020: approximately HK\$287.0 million), sales of tombs and niches amounted to approximately HK\$270.0 million (2020: approximately HK\$266.6 million).

Total assets and net assets of the Group as at 31 March 2021 were approximately HK\$1,341.4 million (2020: approximately HK\$1,069.0 million) and approximately HK\$936.0 million (2020: approximately HK\$680.3 million) respectively. The increase in net assets was mainly due to increase in net profit, appreciation of RMB against HK\$ and the completion of Rights Issue.

LIQUIDITY AND FINANCIAL RESOURCES

During the Year, the net cash inflow was approximately HK\$165.5 million (2020: inflow of approximately HK\$47.8 million). As at 31 March 2021, the cash and cash equivalents of the Group was approximately HK\$255.9 million (2020: approximately HK\$77.7 million). The Group had short-term bank and other borrowings of approximately HK\$39.0 million (2020: approximately HK\$49.3 million) and long-term bank and other borrowings of approximately HK\$90.3 million (2020: approximately HK\$114.2 million) as at 31 March 2021. During the Year, the Group had spent approximately HK\$47.3 million on net for repayment of bank and other borrowings in order to improve the Group's financial position.

MANAGEMENT DISCUSSION AND ANALYSIS

ACQUISITION AND DISPOSAL OF SUBSIDIARIES AND ASSOCIATED COMPANIES

Memorandum of understanding

On 14 March 2020, Anxian Yuan Zhejiang and the shareholders of 阜陽市天壽園陵園管理有限公司 (Fuyang Tianshouyuan Cemetery Management Co., Ltd.*) entered into a non-legally binding memorandum of understanding (“MOU”) in relation to possible investment by Anxian Yuan Zhejiang in Fuyang Tianshouyuan by way of capital injection and its development of a commercial cemetery (經營性公墓), subject to the entering into of the formal agreement. On 18 September 2020, the Board announced that the formal agreement was not entered into between Anxian Yuan Zhejiang and the shareholders of Fuyang Tianshouyuan by 13 September 2020, as they were unable to reach an agreement on the terms of the formal agreement after negotiations in good faith during such period. Accordingly, the MOU has lapsed on 13 September 2020 and the parties thereto will no longer pursue the investment in Fuyang Tianshouyuan. The Board considers that the termination of the MOU will not have any material adverse impact on the business operation and financial position of the Group.

As disclosed in the letter from the Board contained in the Company’s circular dated 29 April 2020, in the event that the investment under the MOU does not materialise, the Company intends to utilise the net proceeds from the Rights Issue originally allocated for the First Phase Investment for other similar investment opportunity(ies). The Company is currently studying and in discussion on certain potential strategic investment opportunities and will make further announcement(s) to update the Shareholders with details of these investments as and when appropriate pursuant to the requirements of the Listing Rules.

Further details of the MOU were set out in the Company’s announcements dated 25 March 2020 and 18 September 2020, Company’s circular dated 29 April 2020 and Company’s prospectus dated 8 July 2020.

No acquisition and disposal of subsidiaries and associated companies were noted during the Year.

RIGHTS ISSUE

Rights Issue

On 25 March 2020, the Company announced that the Board implement the Rights Issue on the basis of three rights shares for every two Shares in issue at the subscription price of HK\$0.1 per rights share, to raise up to approximately HK\$133.3 million before expenses by way of issuing up to 1,332,817,890 rights shares (“Rights Issue”).

On 30 July 2020, the Company completed the Rights Issue and issued 1,332,817,890 rights shares, on the basis of three rights share for every two Shares in issue, at the subscription price of HK\$0.1 per rights share. The net proceeds from the Rights Issue was approximately HK\$131.5 million. As per the Company’s announcement dated 18 September 2020, the Group intends to apply (i) approximately 62.0% or HK\$81.6 million of the net proceeds from the Rights Issue to the potential strategic investment opportunity(ies); (ii) approximately 22.0% or HK\$28.9 million of the net proceeds from the Rights Issue for repayment of existing debts and payables; and (iii) approximately 16.0% or HK\$21.1 million of the net proceeds from the Rights Issue for general working capital.

Further details of the Rights Issue were set out in the Company’s announcements dated 25 March 2020, 28 May 2020, 29 July 2020, 30 July 2020 and 18 September 2020, Company’s circular dated 29 April 2020 and Company’s prospectus dated 8 July 2020 (collectively “Rights Issue Announcements”).

Due to the completion of the Rights Issue on 30 July 2020, the total number of issued ordinary Shares of the Company was 2,221,363,150 Shares (31 March 2020: 888,545,260 Shares) as at 31 March 2021.

MANAGEMENT DISCUSSION AND ANALYSIS

Whitewash Waiver

The Rights Issue were not available to the excluded shareholders. The Rights Issue is conditional upon, among other things, the executive director of the Corporate Finance Division of the Securities and Futures Commission having granted the Whitewash Waiver to Mr. Shi Hua prior to the posting date. The Rights Issue proceeded on a non-underwritten basis irrespective of the level of acceptances of the provisionally allotted Rights Shares. In the event there is an undersubscription of the Rights Issue, the size of the Rights Issue will be reduced accordingly.

On 19 March 2020, the Company respectively entered into the deed of covenants and undertakings with Mr. Shi Hua and the deed of covenants and undertakings with Mr. Shi Jun (as supplemented on 23 March 2020), whereupon Mr. Shi Hua and Mr. Shi Jun had irrevocably undertaken to the Company that, among other things, subject to Mr. Shi Hua having obtained the whitewash waiver, they will accept in full the Rights Shares proposed to be provisionally allotted to them pursuant to the Rights Issue for the full amount payable in respect of such Rights Shares, which shall amount to not less than approximately HK\$32.1 million in aggregate. Mr. Shi Hua confirmed that he intends to apply for excess Rights Shares if there is an undersubscription of the Rights Issue. Mr. Shi Jun does not intend to apply for excess Rights Shares if there is an undersubscription of the Rights Shares.

A special general meeting of the Company was held on 28 May 2020 to pass the resolutions for approving the Rights Issue and the whitewash waiver, details of the poll results of the special general meeting are set out in the Company's announcement dated 28 May 2020.

Accordingly, Mr. Shi Hua has been granted the Whitewash Waiver by the Executive to waive the obligation to make a general offer under the Takeovers Code.

Use of proceeds from Rights Issue

An analysis of the intended use of net proceeds as stated in the Rights Issue Announcements, the actual use of net proceeds up to 31 March 2021, the remaining balance of unutilised net proceeds as at 31 March 2021 and the date of this annual report and the expected timeline for utilising the remaining unutilised net proceeds are set out as below.

	Intended use of net proceeds as stated in the Rights Issue Announcements HK\$'000	Actual use of net proceeds up to 31 March 2021 HK\$'000	Remaining balance of unutilised net proceeds as at 31 March 2021 HK\$'000	Remaining balance of unutilised net proceeds as at the date of this annual report HK\$'000
Investment opportunity(ies)	81,490	–	81,490	81,490
Repayment of existing debts and payables	28,891	21,591	7,300	–
General working capital	21,120	21,120	–	–
	131,501	42,711	88,790	81,490

The remaining balance of unutilised net proceeds of approximately HK\$81,490,000 and HK\$7,300,000 as at 31 March 2021 is expected to be utilised for the potential strategic investment opportunity(ies) as set out in the Company's announcement dated 18 September 2020 and for repayment of existing debts and payables by April 2021 according to the intentions previously disclosed in the Rights Issue Announcements respectively.

Save as disclosed above, the Company has applied the net proceeds from the Rights issue in accordance with the proposed intentions as set out in the Rights Issue Announcements.

Save as disclosed above, as at 31 March 2021, no person, other than the Directors whose interests are set out in the section headed "DIRECTORS' AND CHIEF EXECUTIVE'S INTERESTS and SHORT POSITIONS IN THE SHARES, UNDERLYING SHARES AND DEBENTURES" above, had registered an interest or a short position in the shares or underlying shares of the Company as recorded in the register of interests required to be kept pursuant to Section 336 of the SFO or had interest or deemed to have interests or short positions in Shares or underlying Shares of the Company which would fall to be disclosed to the Company or the Stock Exchange under Part XV of the SFO.

DIRECTORS' REPORT

OTHER INTERESTS DISCLOSEABLE UNDER THE SFO

Save as disclosed above, so far as is known to the Directors, there was no other person who had interest or short position in the Shares and underlying Shares that is discloseable under section 336 of the SFO.

ARRANGEMENT TO ACQUIRE SHARES OR DEBENTURES

Apart from the Share Option Scheme operated by the Company as disclosed in the section headed "Share Option Scheme" below, neither at the end of nor at any time during the Year there subsisted any arrangement to which the Company or any of its subsidiaries was a party and the objects of or one of the objects of such arrangement are/is to enable the Directors to acquire benefits by means of the acquisition of shares in or debentures of the Company or any other body corporate.

Save as disclosed above, at no time during the Year had the Directors and the Chief Executives (including their spouses and children under 18 years of age) any interest in, or been granted, or exercised any rights to subscribe for the Shares (or warrants or debentures, if applicable) of the Company and its associated corporations (within the meaning of the SFO).

RELATED PARTY AND CONNECTED TRANSACTIONS

Details of the related party transactions that are required to be disclosed for the Year are set out in note 36 to the consolidated financial statements. Save as disclosed in the annual report, there were no transactions required to be disclosed as connected transactions in accordance with the requirements of the Listing Rules.

EQUITY-LINKED AGREEMENTS

Other than the share option scheme of the Company as disclosed below, no equity-linked agreements that will or may result in the Company issuing shares or that require the Company to enter into any agreements that will or may result in the Company issuing shares were entered into by the Company during the Year or subsisted at the end of the Year.

SHARE OPTION SCHEME

During the Year, the Company adopted a share option scheme (the "Share Option Scheme") on 28 August 2018 (the "Adoption Date"). The purpose of the Share Option Scheme is to provide incentives or rewards to eligible persons who contribute to the success of the Group's operations. Eligible persons of the Share Option Scheme include any full-time or part-time employee of the Company or any members of the Group, including any Executive Director, Non-executive Director and Independent Non-executive Director, adviser, consultant of the Company or any the subsidiaries.

DIRECTORS' REPORT

The total number of shares which may be issued upon the exercise of all options to be granted under the Share Option Scheme and other schemes must not, in aggregate, exceed 10% of the shares in issue as at the Adoption Date as altered by the capital reorganisation undertaken by the Company which became effective on 29 August 2018 (the "Scheme Mandate Limit"). The total number of shares issued and to be issued upon exercise of the options granted to a participant under the Share Option Scheme and other schemes (including both exercised and outstanding options) in any 12-month period must not exceed 1% of the shares in issue from time to time. Where any further grant of options to a participant (the "Further Grant") would result in the shares issued and to be issued upon exercise of all options granted and to be granted under the Share Option Scheme and other schemes to such participant (including exercised, cancelled and outstanding options) in the 12-month period up to and including the date of the Further Grant representing in aggregate over 1% of the shares in issue from time to time, the Further Grant must be separately approved by the shareholders in general meeting with such participant and his close associates (as defined in the Listing Rules) (or his associates (as defined in the Listing Rules) if the participant is a connected person) abstaining from voting.

Notwithstanding the foregoing, the Company may not grant any option if the number of shares which may be issued upon exercise of all outstanding options granted and yet to be exercised under the Share Option Scheme and other schemes exceeds 30% of the shares in issue from time to time.

The Board may, at its discretion, invite any eligible persons to take up options at a price calculated as mentioned below. Upon acceptance of the option, the eligible person shall pay HK\$1.00 to the Company by way of consideration for the grant. The option will be offered for acceptance for a period of 28 days from the date on which the option is granted.

The Share Option Scheme will be valid and effective for a period of ten years commencing on the date of approval of the Share Option Scheme (i.e. 28 August 2018), after which period no further options may be granted but the provisions of the Share Option Scheme shall remain in full force and effect in all other respects and options granted during the life of the Share Option Scheme may continue to be exercisable in accordance with their terms of issue.

The exercise price for the shares subject to options will be a price determined by the Board and notified to each participant and must be at least the highest of (i) the closing price of the shares as stated in the Stock Exchange's daily quotations sheet on the date of grant of the options, which must be a trading day; and (ii) the average closing price of the shares as stated in the Stock Exchange's daily quotations sheets for the five trading days immediately preceding the date of grant of the options.

All share-based compensation will be settled in equity. The Group has no legal or constructive obligation to repurchase or settle the options other than by issuing shares. The share options do not confer rights on the holders to dividends or to vote at Shareholders' meetings.

The directors of the Company confirm that the Share Option Scheme is in compliance with Chapter 17 of the Listing Rules. During the Year and up to the date of this report, no share option has been granted by the Company under the Share Option Scheme. No share option was outstanding as at 31 March 2021.

DIRECTORS' REPORT

MAJOR CUSTOMERS AND SUPPLIERS

For the Year:

- (i) The Group's five largest customers accounted for less than 30% of the Group's total revenue; and

CORPORATE GOVERNANCE REPORT

The Board is pleased to present the corporate governance report for the year ended 31 March 2021.

The Company is committed to achieving high standards of corporate governance practices and procedures. The corporate governance principle of the Company emphasizes on accountability and transparency and is adopted in the best interests of the Company and its shareholders. In addition, the Company will strive to continuously improve these practices and cultivate an ethical corporate culture.

CORPORATE GOVERNANCE PRACTICES

The Company's corporate governance practices are based on the principles and code provisions are set out in the Corporate Governance Code and Corporate Governance Report (the "Code") as set out in Appendix 14 of the Listing Rules. The Directors are of the view that the Company has been in compliance with the Code throughout the Year, except for the deviation from code provisions A.1.1 and A.6.7 of the Code as specified with considered reasons for such deviations as explained below. The Board will keep reviewing and updating such practices from time to time to ensure compliance with legal and commercial standards.

Compliance with Code on Corporate Governance Practices

During the Year, the Board has adopted and complied with the code provisions of the Code in so far as they are applicable except for the following deviations.

Code provision A.1.1 of the Code

Code provision A.1.1 of the Code stipulates that the Board should meet regularly and board meeting should be held at least four times a year at approximately quarterly intervals. During the Year, only two regular board meetings were held to review and discuss the annual and interim results. The Company does not announce its quarterly results and hence does not consider the holding of quarterly meetings as necessary.

Code provision A.6.7 of the Code

Code provision A.6.7 of the Code provides that independent non-executive directors and other non-executive directors, as equal board members as other directors, should attend general meetings of the company. Due to other pre-arranged business commitments and the circumstance under the COVID-19 outbreak, Mr. Shi Hua and Mr. Shi Jun, being Executive Director, Mr. Wang Hongjie, being Non-executive Director, and Mr. Yao Hong, being former Independent Non-Executive Director, were unable to attend the special general meeting of the Company held on 28 May 2020.

Continuous efforts are made to review and enhance the Group's internal controls and procedures in light of changes in regulations and developments in best practices.

Corporate Governance Structure

The Board is primarily responsible for formulating strategies, monitoring performance and managing risks of the Group. At the same time, it also has the duty to enhance the effectiveness of the corporate governance practices of the Group. Under the Board, there are 3 board committees, namely the Audit Committee, Remuneration Committee and Nomination Committee. All these committees perform their distinct roles in accordance with their respective terms of reference and assist the Board in supervising certain functions of the senior management.

CORPORATE GOVERNANCE REPORT

DIRECTORS' SECURITIES TRANSACTIONS

The Company has adopted the Model Code as its own code of conduct regarding Directors' securities transactions. Having made specific enquiry of the Directors, all the Directors confirmed that they had complied with the required standard set out in the Model Code throughout the Year. No incident of non-compliance was noted by the Company during the Year.

BOARD OF DIRECTORS

Composition of the Board

As at the date of this annual report, the Board comprises seven members, including three Executive Directors, one Non-executive Director and three Independent Non-executive Directors. The Board members during the Year and up to the date of this annual report were:

Executive Directors

Mr. Shi Hua (*Chairman*)

Mr. Shi Jun (*Chief Executive Officer*)

Mr. Law Fei Shing (*Deputy Chief Executive Officer*)

Non-executive Director

Mr. Wang Hongjie

Independent Non-executive Directors

Mr. Chan Koon Yung

Mr. Lum Pak Sum

Ms. Hung Wan Fong, Joanne (appointed on 19 October 2020)

Mr. Yao Hong (resigned on 21 July 2020)

The list of Directors (by category) is also disclosed in all corporate communications issued by the Company pursuant to the Listing Rules from time to time.

The Board includes a balanced composition of executive and non-executive Directors (including independent non-executive Directors) and more than one-third of the Directors are independent non-executive Directors so that there is a strong independent element in the Board, which can effectively exercise independent judgment.

The brief biographical details of the current Directors as well as the relationships among Board members, if any, are set out on in the section headed "Biographical Details of Directors and Senior Management" on pages 10 to 12 of this annual report.

NON-COMPLIANCE WITH RULES 3.10(1) AND 3.21 OF THE LISTING RULES

Following the resignation of Mr. Yao Hong, the Board was comprised of six (6) members with three (3) executive Directors, one (1) non-executive Director and two (2) independent non-executive Directors and the audit committee of the Company consisted of two (2) members. The Company failed to meet the requirement of having at least three independent non-executive directors on the Board under Rule 3.10(1) of the Listing Rules. Further, the Company failed to fulfill the requirement on the minimum number of non-executive directors for the formation of the audit committee of the Board as stipulated in Rule 3.21 of the Listing Rules. As stated in the Company's announcement dated 21 July 2020, a suitable candidate is appointed as soon as practicable and, in any event, within the three-month period from 21 July 2020 pursuant to Rules 3.11 and 3.23 of the Listing Rules.

CORPORATE GOVERNANCE REPORT

As disclosed in the Company's announcement on 16 October 2020, Ms. Hung Wan Fong, Joanne has been appointed as an Independent Non-executive Director and a member of each of audit committee, remuneration committee and nomination committee of the Company with effect from 19 October 2020.

Upon the appointment of Ms. Hung Wan Fong, Joanne with effect from 19 October 2020, the Company have fulfilled the requirements under Rules 3.10(1) and 3.21 of the Listing Rules.

Responsibilities of and Delegation by the Board

The Company is governed by the Board which is responsible for directing and supervising its affairs and overseeing the business, strategic direction and performance of the Group. Execution of the Board's decisions and daily operations are delegated to the executive Directors and the management. The functions reserved to the Board and those delegated to executive Directors and management, for the running of the Company's business, have been formalised. The Board reviews those arrangements from time to time to ensure that they remain appropriate to the needs of the Company.

The management of the Company updates the Directors on their duties and responsibilities as well as the conduct, business activities and development of the Group. It supplies the Directors and the Board committees of the Company (the "Board Committees") with adequate, complete and reliable information in a timely manner to enable them to make informed decisions on all major matters of the Company. The day to day management, administration, operation of the Group and adoption of the Company's strategies and policies are delegated to the management. The clear responsibilities division between the Board and the Management ensured the power and authority are balanced and not concentrated in any one individual. The management also provides sufficient information and explanation to the Board to enable it to make an informed assessment of financial and other information put before it for approval. The management also supplies additional information upon request and enquiry by the Directors. Timely updates on changes in laws and compliance issues relevant to the Group and appropriate information on the Group's business and activities are provided to the Directors. The Board and each Director has a separate and independent access to the management and the Company Secretary, whenever necessary, for any information relevant to the Group they may require in discharging their duties.

Directors' Liability Insurance

The Company has arranged for appropriate insurance cover in respect of legal action against the Directors.

Relationships between the Board

Mr. Shi Hua, an Executive Director and the Chairman of the Board, is the father of Mr. Shi Jun, an Executive Director and the Chief Executive Officer. Save for the aforesaid, none of the Directors has any financial, business, family or other material or relevant relationships among members of the Board.

Independent non-executive Directors

Currently, the Company has appointed three Independent Non-executive Directors which representing more than one-third of the Board as required by Rule 3.10A of the Listing Rules, and at least one of them having appropriate professional qualifications or accounting or related financial management expertise. All of the Independent Non-executive Directors have signed their respective confirmation letters to the Company confirming their independence as set out in the Listing Rules 3.13. During the Year, the Board possesses a balanced mix of skills and expertise which supports the continuing development of the Company.

CORPORATE GOVERNANCE REPORT

Directors' Attendance Records

The Board schedules regular Board meetings in advance to give Directors the opportunity to participate actively, either in person or through electronic means of communication. Directors are consulted for their views regarding inclusion of specific matters in the agenda for regular Board meetings and the draft agenda is circulated to Directors for their comments. Special Board meetings are convened as and when needed. All Directors are properly briefed on issues to be discussed at Board meetings. These Board meetings, together with the Board Committees, provide effective means for the Board and Board Committees to perform their work and discharge their duties.

During the Year, eleven Board meetings, five Audit Committee meetings, three Remuneration Committee meetings, three Nomination Committee meetings and two general meetings were held. Details of individual Directors' attendance at these meetings are set out in the following table:

Continuous Professional Development of the Directors

Pursuant to code provision of A.6.5 of the Code, all Directors should participate in continuous professional developments (the "Continuous Professional Developments") to develop and refresh their knowledge and skills. This is to ensure that their contribution to the Board remains informed and relevant. The Company should be responsible for arranging and funding suitable training, placing an appropriate emphasis on the roles, functions and duties of a listed company director. The Company updates Directors on the latest development regarding the Listing Rules and other applicable regulatory requirements from time to time, in order to ensure compliance and enhance their awareness of good corporate governance practices. The Company also arranges suitable professional development seminars or courses for the Directors and circulate various journals, articles and commentaries about the latest development of the industry from time to time amongst Directors.

CORPORATE GOVERNANCE REPORT

According to the confirmation records provided by the Directors, all the Directors have participated in Continuous Professional Development for the Year. During the Year, the Directors have participated in the Continuous Professional Developments in the following manner:

CHAIRMAN AND CHIEF EXECUTIVE OFFICER

Code provision A.2.1 of the Code stipulates that the roles of chairman and chief executive should be separate and should not be performed by the same individual.

The Chairman and the Chief Executive Officer are currently two separate positions held by Mr. Shi Hua and Mr. Shi Jun respectively with clear distinction in responsibilities.

Mr. Shi Hua, being the Chairman, is responsible for the management and leadership of the Board to formulate overall strategies and business development directions for the Group, to ensure that adequate, complete and reliable information is provided to all Directors in a timely manner, and to ensure that the issues raised at the Board meetings are explained appropriately.

Mr. Shi Jun, being the Chief Executive Officer, is responsible for the daily operations of the Group and the implementation of business policies, objectives and plans as formulated and adopted by the Board, and is accountable to the Board for the overall operation of the Group.

CORPORATE GOVERNANCE REPORT

APPOINTMENT AND RE-ELECTION OF DIRECTORS

All non-executive Directors, including independent non-executive Directors, are appointed for an initial term of one year and renewable automatically for successive terms of one year until terminated by the non-executive Director or the Company by giving not less than three months' written notice. Each of the Directors is subject to retirement and re-election at least once every three years in accordance with the Company's Bye-laws.

Pursuant to Bye-law No. 84 of the Bye-laws, at each annual general meeting of the Company, one-third of the Directors for the time being, or, if their number is not three or a multiple of three, the number nearest to but not less than one-third, shall retire from office by rotation such that every Director (including those appointed for a specific term) shall be subject to retirement by rotation at least once every three years. The Directors to retire by rotation shall include any Director who wishes to retire and not to offer himself for re-election. Any further Directors so to retire shall be those of the other Directors subject to rotation who have been longest in office since their last election or appointment and so that as between persons who became Directors on the same day those to retire shall (unless they otherwise agree among themselves) be determined by lot.

Pursuant to Bye-law No. 83(2) of the Bye-laws, the Directors shall have power from time to time and at any time to appoint any person as a Director either to fill a casual vacancy or as an addition to the Board. All Directors appointed to fill a casual vacancy shall be subject to election by the Shareholders at the first annual general meeting after their appointment. Any other Director so appointed by the Board shall hold office only until the next following annual general meeting of the Company and shall then be eligible for re-election at that meeting.

BOARD COMMITTEES

The Board has proper delegation of its powers and has established three Board Committees, namely the Audit Committee, the Remuneration Committee and the Nomination Committee, with specific written terms of reference that deal clearly with their authority and duties, to oversee particular aspects of the Group's affairs. The Board may establish other Board Committee(s) when necessary in accordance with the Bye-laws. The terms of reference of all Board Committees have required them to report back to the Board on their decisions or recommendations, unless there are legal or regulatory restrictions on their ability to do so.

Sufficient resources, including the advice of the external auditor and other independent professional advisers, are provided to the Board Committees to enable them to discharge their duties.

Audit Committee

The Audit Committee has been established with written terms of reference in compliance with Rules 3.21 and 3.22 of the Listing Rules and code provision C.3.3 of the Code. The Audit Committee is accountable to the Board and is primarily responsible for reviewing and monitoring the integrity of financial information and reporting by the Company, for reviewing the Group's internal control and risk management systems and for overseeing the relationship with the external auditor. The Audit Committee has access to and maintains an independent communication with the external auditor and the management to ensure effective information exchange on all relevant financial and accounting matters.

The full terms of reference of the Audit Committee are available on the Stock Exchange's website and the Company's website.

CORPORATE GOVERNANCE REPORT

The Audit Committee currently comprises three members of all whom are Independent Non-executive Directors, namely:

Mr. Chan Koon Yung (*chairman of the Audit Committee*)

Mr. Lum Pak Sum

Ms. Hung Wan Fong, Joanne

None of the members of the Audit Committee is a member of the former or existing auditors of the Company.

The key roles and responsibilities of our Audit Committee include:

- (i) make recommendations to the Board on the appointment, re-appointment and removal of the external auditor, and approve the remuneration and terms of engagement of the external auditor, and deal with any questions of its resignation or dismissal;
- (ii) review and monitor the external auditor's independence and objectivity and the effectiveness of the audit process in accordance with applicable standards, and discuss with the auditor the nature and scope of the audit and reporting obligations before the audit commences;
- (iii) develop and implement policy on engaging an external auditor to supply non-audit services;
- (iv) monitor integrity of the Company's financial statements and annual report and accounts, half-year report and, if prepared for publication, quarterly reports, and review significant financial reporting judgments contained in them;
- (v) review the systems of the Company on financial controls, internal control (including without limitation the procedures for compliance with the requirements of Listing Rules and the Companies Ordinance (Cap. 622 of the Laws of Hong Kong)) and risk management;
- (vi) discuss the risk management and internal control systems with management to ensure that management has performed its duty to have effective systems;
- (vii) where an internal audit function exists, ensure co-ordination between the internal and external auditors, and ensure that the internal audit function is adequately resourced and has appropriate standing within the Company, and review and monitor its effectiveness;
- (viii) review the Group's financial and accounting policies and practices;
- (ix) review the external auditor's management letter, any material queries raised by the external auditor to management about accounting records, financial accounts or systems of control and management's response, and ensure that the Board will provide a timely response to the issues raised in the external auditor's management letter;
- (x) review arrangements employees of the Company can use, in confidence, to raise concerns about possible improprieties in financial reporting, internal control or other matters; and
- (xi) act as the key representative body for overseeing the Company's relations with the external auditor.

CORPORATE GOVERNANCE REPORT

During the Year, the Audit Committee has performed the following major works:

- reviewed the annual financial statements of the Group and related results announcement and report of the Company for the year ended 31 March 2020, with recommendations to the Board for approval;
- reviewed and monitored the financial reporting system, the risk management and internal control systems and the internal audit function of the Group, including their performance and effectiveness, and findings and recommendations of the independent professionals;
- reviewed the interim financial statements of the Group and related results announcement and report of the Company for the six months ended 30 September 2020, with recommendations to the Board for approval;
- received reports on the findings of BDO Limited during the audit and reviewed the recommendations made to management by BDO Limited and the relevant management's responses;
- considered and made recommendations to the Board on the re-appointment of BDO Limited;
- reviewed the independence of BDO Limited and engagement of BDO Limited for annual audit for the Year;
- reviewed and approved the annual audit plan of external auditor, including the nature and scope of the audit, the fee payable to them, their reporting obligations and their work plan; and
- reviewed the Company's corporate governance compliance matters.

According to the current terms of reference, meetings of the Audit Committee shall be held at least twice a year. Five meetings were held during the year ended 31 March 2021. The attendance records of each committee member at the Audit Committee meeting held during the Year are set out in the above section headed "Directors' Attendance Records" on page 28 of this report.

There was no disagreement between the Board and the Audit Committee regarding the appointment of external auditor.

CORPORATE GOVERNANCE REPORT

Remuneration Committee

The Remuneration Committee has been established with written terms of reference in compliance with code provision B.1.2 of the Code. The Remuneration Committee is primarily responsible for recommending to the Board the remuneration of Directors and certain senior managers.

The full terms of reference of the Remuneration Committee are available on the Stock Exchange's website and the Company's website.

The Remuneration Committee currently comprises three members of all whom are Independent Non-executive Directors, namely:

Mr. Chan Koon Yung (*chairman of the Remuneration Committee*)
Mr. Lum Pak Sum
Ms. Hung Wan Fong, Joanne

The key roles and responsibilities of the Remuneration Committee include:

- (i) make recommendations to the Board on the Company's policy and structure for all Directors' and senior management's remuneration and on the establishment of a formal and transparent procedure for developing remuneration policy;
- (ii) review and approve the management's remuneration proposals with reference to the Board's corporate goals and objectives;
- (iii) make recommendations to the Board on the remuneration of Non-executive Directors;
- (iv) consider salaries paid by comparable companies, time commitment and responsibilities and employment conditions elsewhere in the Group;
- (v) review and approve compensation payable to executive Directors and senior management for any loss or termination of office or appointment to ensure that it is consistent with contractual terms and is otherwise fair and not excessive;
- (vi) review and approve compensation arrangements relating to dismissal or removal of Directors for misconduct to ensure that they are consistent with contractual terms and are otherwise reasonable and appropriate; and
- (vii) ensure that no Director or any of his associates is involved in deciding his own remuneration.

During the Year, the Remuneration Committee has performed the following major works:

- reviewed the policy on remuneration and remuneration packages of all of the Directors and management;
- reviewed specific remuneration packages of all executive Directors and management, with recommendations to the Board for approval (i.e. the model described in code provision B.1.2(c)(ii) of the Code is adopted);
- considered and made recommendation to the Board relating to the remuneration of newly appointed Director during the Year; and
- reviewed the salary adjustment of Directors and management and made recommendation to the Board for approval.

CORPORATE GOVERNANCE REPORT

Meeting of the Remuneration Committee shall be held at least once a year. Three meeting was held during the year ended 31 March 2021. The attendance records of each committee member at the Remuneration Committee meeting held during the Year are set out in the above section headed “Directors’ Attendance Records” on page 28 of this report.

The executive Directors are the senior management of the Company. Further details of the remuneration of Directors and the five highest paid employees have been set out in notes 8 and 9 to the consolidated financial statements respectively.

Nomination Committee

The Nomination Committee has been established with written terms of reference in compliance with code provision A.5.2 of the Code. The primary duties of the Nomination Committee are to review the structure, size and composition (including the skills, knowledge and experience) of the Board on a regular basis and recommending any changes directly to the Board; identifying qualified and suitable individuals to become Board members and selecting and/or making recommendations to the Board on the selection of individuals nominated for directorships; assessing the independence of independent non-executive Directors; and making recommendations to the Board on relevant matters relating to the appointment or re-appointment of Directors and succession planning for Directors, in particular the Chairman of the Board and the Chief Executive Officer.

The full terms of reference of the Nomination Committee are available on the Stock Exchange’s website and the Company’s website.

The Nomination Committee currently comprises four members, a majority of them being Independent Non-executive Directors, namely:

Mr. Shi Hua (*Chairman and chairman of the Nomination Committee*)
Mr. Chan Koon Yung
Mr. Lum Pak Sum
Ms. Hung Wan Fong, Joanne

The key roles and responsibilities of the Nomination Committee include:

- (i) review the structure, size and composition (including the skills, knowledge and experience) of the Board at least annually and make recommendations on any proposed changes to the Board to complement the Company’s corporate strategy;
- (ii) identify individuals suitably qualified to become Board members and select or make recommendations to the Board on the selection of individuals nominated for directorships;
- (iii) assess the independence of independent non-executive Directors; and
- (iv) make recommendations to the Board on the appointment or re-appointment of Directors and succession planning for Directors, in particular the Chairman and the Chief Executive Officer.

CORPORATE GOVERNANCE REPORT

The Company also recognises and embraces the benefits of having a diverse Board and sees increasing diversity at the Board level as an essential element in maintaining the Company's competitive advantage. The Company believes that greater diversity of Directors is good for corporate governance and is committed to attract and retain candidate(s) for Board with a combination of competencies from the widest possible pool of available talents; and to assess regularly the diversity profile of the Board and, where applicable, the senior management of the Company prepared for Board positions under the succession planning of the Company and the progress on achieving diversity objectives, if any. A Board diversity policy was adopted by the Company, pursuant to which the Board and the Nomination Committee is responsible for reviewing and assessing the Board composition under diversified perspectives (including but not limited to gender, age, cultural and educational background, or professional experience) and for ensuring that changes to the Board's composition can be managed without undue disruption. The Nomination Committee shall report its findings and make recommendation to the Board, if any. Such policy and objectives, if any, will be reviewed from time to time to ensure their appropriateness in determining the optimum composition of the Board that are aligning with the Company's strategy and objectives.

During the Year, the Nomination Committee has performed the following major works:

- reviewed the Board diversity policy;
- reviewed the structure, size, diversity and composition of the Board and Board Committees and the split between numbers of Executive Directors, Non-executive Directors and Independent Non-executive Directors;
- considered and made recommendation to the Board relating to the appointment of Ms. Hung Wan Fong, Joanne as Independent Non-executive Director;
- considered and recommended to the Board the re-election of the retiring Directors at the 2020 annual general meeting; and
- assessed the independence of the Independent Non-executive Directors.

The Nomination Committee considers that the current composition of the Board is characterised by diversity after taking into account its own business model and specific needs, whether considered in terms of educational and professional background, experience and skills.

Meeting of the Nomination Committee shall be held at least once a year. Three meeting was held during the year ended 31 March 2021. The attendance records of each committee member at the Nomination Committee meeting held during the Year are set out in the above section headed 'Directors' Attendance Records' on page 28 of this report.

The Company has also adopted the Director Nomination Policy. Such policy, devising the criteria and process of selection and performance evaluation, provides guidance to the Board on nomination and appointment of Directors. The Board believes that the defined selection process is good for corporate governance in ensuring the Board continuity and appropriate leadership at Board level, and enhancing better Board effectiveness and diversity as well as in compliance with the applicable rules and regulations.

The Nomination Committee and/or the Board may select candidates for directorship from various channels, including but not limited to internal promotion, re-designation, referral by other member of the management and external recruitment agents. In selecting and evaluating candidates for directorship, the Nomination Committee may make reference to certain criteria, such as the Company's needs, the integrity, experience, skills and professional knowledge of the candidate, and the amount of time and effort that the candidate will devote to discharge his/her duties and responsibilities. Each candidate shall be ranked by order of preference based on the needs of the Company and his/her reference check. The Nomination Committee shall report its findings and make recommendation to the Board on the appointment of appropriate candidate for directorship for decision.

CORPORATE GOVERNANCE REPORT

Corporate Governance Functions

The Board is responsible for performing the corporate governance duties set out in code provision D.3.1 of the Code. The principal roles and functions of the Board in relation to corporate governance is to develop and review the Company's policies and practices on corporate governance, to review and monitor the training and continuous professional development of Directors and management, to review and monitor the Company's policies and practices on compliance with legal and regulatory requirements, to develop, review and monitor the code of conduct applicable to employees and Directors, and to review the Company's compliance with the Code and disclosure in the Corporate Governance Report.

During the Year, the principal works performed by the Board in relation to corporate governance functions are summarised below:

- reviewed the template for monthly update (including financial information and business operations) of the Group;
- reviewed the arrangements for the Company's employees to use, in confidence, and to raise concerns about possible improprieties in financial reporting, internal control or other matters;
- reviewed the Corporate Governance Policy, Shareholders' Communication Policy and Codes of Conduct applicable to employees and Directors of the Company;
- reviewed and monitored the training and continuous professional development of the Directors and management;
- reviewed and monitored the legal and regulatory compliance policy of the Company;
- reviewed the terms of reference of each of the Board Committees; and
- reviewed the Company's compliance with the Code.

ACCOUNTABILITY AND AUDIT

Financial Reporting

The Board is accountable to the shareholders and is committed to presenting comprehensive and timely information to the shareholders for assessment of the Company's performance, financial position and prospects. A separate statement containing a discussion and analysis of the Group's performance is included in the section headed "Management Discussion and Analysis" of this annual report.

The Directors acknowledge their responsibility for the presentation of financial statements, which give a true and fair view of the state of affairs of the Company and the Group, and the results and cash flows for each financial period. In preparing the financial statements, the Directors have to ensure that appropriate accounting policies are adopted. The financial statements are prepared on a going concern basis. The Board is provided with explanations and information by the management of the Company, so that the Directors have an informed assessment of the financial and other information of the Group putting forward to the Board for discussion and approval.

The Board's endeavour to present a balanced, clear and understandable assessment extends to annual and interim reports and other financial disclosures required under the Listing Rules and other applicable rules.

The independent auditor's report, which contains the statement of the external auditor about its reporting responsibilities on the Group's consolidated financial statements, is set out in the section headed "Independent Auditor's Report" of this annual report.

CORPORATE GOVERNANCE REPORT

Risk Management and Internal Control

The Board acknowledges that it is its duty to monitor the risk management and internal control systems of the Group on an ongoing basis and review their effectiveness. Such systems are designed to manage rather than eliminate the risk of failure to achieve business objectives, and can only provide reasonable and not absolute assurance against material misstatement or loss.

During the year ended 31 March 2021, the Board, through the Audit Committee, conducted an annual review of both design and implementation effectiveness of the risk management and internal control systems of the Group, covering all material controls, including financial, operational and compliance controls, with a view to ensuring that resources, staff qualifications and experience, training programmes and budget of the Group's accounting, internal audit and financial reporting functions are adequate. In this respect, the Audit Committee communicates any material issues to the Board.

The Directors have received the need for an internal audit function and are of the view that in light of the size, nature and complexity of the business of the Group, it would be more cost effective to appoint external independent professionals to perform internal audit function for the Group in order to meet its needs,

During the year ended 31 March 2021, the Group appointed BT Corporate Governance Limited ("BTCG") to:

- assist in identifying and assessing the risks of the Group through a series of workshops and interviews; and
- independently perform internal control review and assess effectiveness of the Group's risk management and internal control systems.

The results of the independent review and assessment were reported to the Audit Committee and the Board. Moreover, improvements in internal control and risk management measures as recommended by BTCG to enhance the risk management and internal control systems of the Group and mitigate risks of the Group were adopted by the Board. Based on the findings and recommendations of BTCG as well as the comments of the Audit Committee, the Board considered the internal control and risk management systems are effective and adequate.

The Group's risk management activities are performed by management on an ongoing process. The Company has adopted risk management policy and procedures (the "Risk Management Policy"), the effectiveness of the Group's risk management framework will be evaluated at least annually, and periodic management meeting is held to update the progress of risk monitoring efforts. Management is committed to ensure that risk management forms part of the daily business operation processes in order to align risk management with corporate goals in an effective manner.

The Group has established internal control procedures for the handling and dissemination of inside information, in order to comply with Chapter 13 of the Listing Rules as well as Part XIVA of the SFO. The internal control mechanism includes information flow and reporting processes, confidentiality arrangements, disclosure procedures, staff training arrangements, etc.

The Company will continue to engage external independent professionals to review the Group's system of internal controls and risk management annually to further enhance the Group's internal control and risk management systems as appropriate.

CORPORATE GOVERNANCE REPORT

Auditor and their Remuneration

The external auditor performs independent review or audit of the financial statements prepared by the management. The external auditor of the Company is BDO Limited. A statement by the auditor about its reporting responsibilities is included in the Independent Auditor's Report on the Group's consolidated financial statements on pages 68 to 72 in this annual report.

In arriving at its opinion, the auditor conducted an audit without any restrictions and had access to individual Directors (including Audit Committee members) and management of the Company.

For the year ended 31 March 2021, the remuneration paid and payable to BDO Limited in respect of the audit and non-audit services of the Group is set out below:

Type of services provided by the external auditor	HK\$'000
Audit service	860
Non-audit service	–
Total	860

Procedures and internal controls for the handling and dissemination of inside information

The Group complies with requirements of the Securities and Futures Ordinance (Cap. 571 of the Laws of Hong Kong) ("SFO") and the Listing Rules. The Group discloses inside information to the public as soon as reasonably practicable unless the information falls within any of the safe harbours as provided in the SFO. Before the information is fully disclosed to the public, the Group ensures that the information is kept strictly confidential. If the Group believes that the necessary degree of confidentiality cannot be maintained or that confidentiality may have been breached, the Group will immediately disclose the information to the public. The Group is committed to ensuring that information contained in announcements are not false or misleading as to a material fact, or false or misleading through the omission of a material fact, in view of presenting information in a clear and balanced way, which requires equal disclosure of both positive and negative facts.

COMPANY SECRETARY

The Company appointed Mr. Law Fei Shing as the Company Secretary since 22 July 2011. Mr. Law is also an Executive Director and the deputy chief executive officer of the Company. He supports the Board by ensuring good information flow within the Board and that board policy and procedures are followed. He is also responsible for advising the Board through the chairman of the Board on corporate governance and the implementation of the Code. The Company Secretary has day-to-day knowledge of the Group's affairs.

The Company Secretary reports to the chairman of the Board. All Directors also have access to the advice and services of the Company Secretary to ensure that all applicable laws, rules and regulations are followed. The selection, appointment and dismissal of the Company Secretary are subject to the Board approval.

The Company Secretary has confirmed that he has taken no less than 15 hours of relevant professional training during the Year.

CORPORATE GOVERNANCE REPORT

DIVIDEND POLICY

The Board has adopted the Dividend Policy to set out the basic principles and criteria based on which the Board may consider in determining the distribution of the dividends. Such declaration and payment of dividends shall remain to be determined at the absolute discretion of the Board, subject to all the applicable laws and regulations and the Bye-laws.

The Company intends to pay dividend(s) of not more than 75% of its distributable reserves available for distribution. However, the Board will take into account the following conditions and factors before recommending or declaring dividends, including without limitation to: (i) financial results; (ii) cash flow situation; (iii) balance of distributable reserves; (iv) business conditions and strategies; (v) future operations and earnings; and (vi) capital requirements and expenditure plans.

The Board will review the said Dividend Policy as appropriate from time to time. The historical declarations of dividends of the Group should not be used as a reference or basis to determine the level of dividends that may be declared or paid by the Group in the future. Any declaration and payment as well as the amount of the dividends will be subject to any restrictions under the applicable laws and regulations and the Bye-laws.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

ENVIRONMENT

Summary

The Group understands that there are apparently increasing concerns by the public over environmental and health issues due to economic development and social advancement nowadays. As the business of the Group is closely related to the environment, the Group attaches considerable importance to its influence on the environment and society. In addition to strict compliance with environmental laws and regulations such as the Environmental Protection Law, we have also built an internal corporate culture to safeguard the interests of all stakeholders. The impacts on the society and environment have been taken into account in management's decision making and the Group's daily operation in order to conserve natural resources and protect the environment.

In recent years, people are paying more attention to environmental protection and are willing to let their bodies return to the nature when their lives end in order to reduce consumption of funeral and burial resources, including simplifying ways of funerals and graveside rituals. The Group is actively promoting the concept of green funerals and updating the "Green Policy" to ensure the enterprise can achieve a balance between sustainable development and environmental protection. During the reporting year, the Group complied with all regulations related to environmental protection and it was not involved in any non-compliance issues in relation to environment protection which have significant impact on the Group.

Emission

The Report is made in accordance with the Reporting Guidance on Environmental KPIs of the Hong Kong Stock Exchange focusing on direct emissions (Scope 1) and indirect emissions (Scope 2), where other indirect emissions (Scope 3) are excluded in the Report.

The source of the gas fuel we use is coal gas. We use coal gas for the cooking stoves in the staff canteen. During the reporting period, we consumed approximately 27,000 MJ (during the year 2019/20: approximately 30,000 MJ) coal gas, representing a decrease of approximately 11% as compared with that of last year.

During the reporting year, the details of the Group's usage of vehicles are as follows:

	Year 2020/21	Year 2019/20
Number of vehicles	18	14
Type of vehicles		
Light vehicles (<=2.5 tons)	11	7
Light vehicles (2.5-5.5 tons)	5	6
Mid-sized vehicles (5.5-15 tons)	2	1
Type of fuel used		
Vehicles powered by gasoline	13	10
Vehicles powered by diesel	5	4
Total distance ran by vehicles in km	332,451 km	353,051 km
Gasoline consumed	36,282 litres	29,520 litres
Diesel consumed	8,582 litres	12,437 litres

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

The above coal gas consumption and the use of vehicles result in emission of nitrogen oxide, sulphur dioxide and particles. The relevant emission data during the year 2020/21 are set forth below:

Emission	Source	Unit	Type	Figures
KPI1.1				<i>kg</i>
Emission from gas fuel consumption	Coal gas	26,377 MJ	Nitrogen oxide:	106,036.34
			Sulphur dioxide:	527.54
				<i>g</i>
Emission from vehicles	Distance ran by vehicles in km	332,451 km	Nitrogen oxide:	359,769.43
			Particles:	31,737.23
	Gasoline	36,282 litres	Sulphur dioxide:	671.51
	Diesel	8,582 litres		

During the year 2019/20, the relevant emission data of the Group are as follows:

Emission	Source	Unit	Type	Figures
KPI1.1				<i>kg</i>
Emission from gas fuel consumption	Coal gas	29,894 MJ	Nitrogen oxide:	120,174.52
			Sulphur dioxide:	597.88
				<i>g</i>
Emission from vehicles	Distance ran by vehicles in km	353,051 km	Nitrogen oxide:	489,137.77
			Particles:	36,373.82
	Gasoline	29,520 litres	Sulphur dioxide:	634.18
	Diesel	12,437 litres		

With regard to vehicles, the Group provides several shuttle busses for grave sweepers. In addition, the Group also possesses private cars and trucks which are mainly used for pickup and transportation for the Group. In selection of vehicle fleets, the Group takes into account factors such as cost efficiency, fuel efficiency, maintenance costs and satisfaction of its needs in order to reduce the impact on the environment.

Yin Chuan Fu Shou Yuan

Zhejiang Anxian Yuan

Fossil fuel is mainly used for the cooking stoves in our staff canteen and cremators.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

The funeral parlour of the Group located in Zunyi Dashenshan provides cremation services for customers. Hazardous gases are generated during the cremation process, including dust, carbon dioxide, nitrogen oxide and carbon monoxide. In order to minimise the impact of the aforementioned gas emission on the environment, the Group keeps a stringent supervision and control over the quantity of emission of the aforementioned gases in an endeavour to comply with the requirements of the national standards under the Emission Standard of Air Pollutants for Crematory (GB13801-2015) of the People's Republic of China. Meanwhile, cremation involves high-temperature combustion, the process of which requires consumption of diesel to power the cremators for cremation work.

During the reporting period, we have carried out a total of 4,044 cremation projects (during the year 2019/20: 3,910). The emission data in relation to the cremation process are set forth below:

Cremation projects

	Year 2020/21	Year 2019/20
Number of cremation projects	4,044	3,910
		(kg/m ³)
Dust	0.21	0.20
Carbon dioxide	0.18	0.17
Nitrogen oxide	0.54	0.52
Carbon monoxide	0.65	0.63

In order to reduce the emission of greenhouse gas, we plant trees proactively. During the reporting year, we planted 109,237 (during the year 2019/20: 148,216) trees in aggregate, which substantially reduced our carbon footprint. The indirect gas emissions of the Group are mainly derived from the use of purchased electricity as the power generation process of power companies causes greenhouse gas emission. As such, the Group advocates its employees to conserve energy and reduce power consumption.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

Waste

Hazardous Waste

No hazardous waste is generated in the course of operation. Therefore, no relevant data is disclosed.

Non-hazardous Waste

Other emissions of the Group in the course of business also include sewage and solid waste.

Sewage is classified into household sewage and industrial sewage. Household sewage of the Group is mainly derived from the cemeteries and offices. In order to strengthen environmental protection, water purification equipment is installed in cemeteries, through which all household sewage is purified and recycled for the irrigation of plants in the cemeteries. As for industrial sewage, no industrial sewage is produced in the course of the Group's business.

Zhejiang Anxian Yuan

Yin Chuan Fu Shou Yuan

Solid waste mainly includes food waste and general waste in offices. Due to the special nature of the Group's business, solid waste generated in the course of business is rather inconsiderable. Not only is the food waste produced in cemeteries limited, but certain amount of the food waste is also recycled into fertilizer. Regarding to office supplies, the Group advocates conservation and environmental protection and recycles the recyclable materials to the extent possible. The Group urges its employees to use emails and electronic files instead of printed copies and advocates duplex printing and the use of pen refills in order to reduce waste.

The Group advocates green funeral services and appeals grave sweepers to burn less incense and offerings to the extent possible. However, as traditional mindset still prevails in the PRC, some people still choose to burn incense and offerings during graveside rituals. Hence, the Group has set up incense areas and required grave sweepers to burn incense and offerings at specified areas. Incense ash is collected and used for green planting in order to reduce pollution to the environment.

In order to reduce the impact on the environment, cemeteries workers of the Group provide grave sweepers with flowers in replacement of traditional incense on traditional grave sweeping festivals to promote the Group's concept of green funeral. In addition, the Group set up a public account “彼岸天堂” (in English, for identification purpose only, “Paratown”) on WeChat a few years ago which is used as a We Media platform for spreading the filial piety culture. It also organised the “Scanning QR Code for Flowers” activity at Zhejiang Anxian Yuan – flower giveaway to all Hangzhou citizens and propagandized civilised graveside rituals.

As the Group has recycled or eliminated the disposal of non-hazardous waste, there is no statistics or disclosure of the Group's emission of non-hazardous waste.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

USE OF RESOURCES

The Group's major uses of resources are purchased water and electricity.

Drinking water processing by the government always requires consumption of electricity and most of the electricity is generated from non-renewable fossil fuel such as coal and petroleum. Consumption of water and electricity hence results in emission of carbon dioxide. However, we still wish to minimise our influence on the environment through conservation and effective usage of water resources and electricity.

Electricity is mainly used in the daily operation of the headquarters and cemetery offices of the Group to sustain the operation of air-conditioning, lighting system, computers and other office equipment. In order to use resources effectively, the Group requires employees to turn off electrical appliances when not in use, including during lunch hour and after work.

As for the consumption of water resources, the water consuming parties of the Group are offices and cemeteries. In order to conserve water resources, the Group requires office workers to save water. As all cemeteries are equipped with water purification equipment, all household sewage is recycled upon filtration through purification equipment for irrigating plants in the cemeteries. In addition, the cemeteries also use rainwater for irrigation. For example, Zhejiang Anxian Yuan has an artificial lake for collection of natural rainwater and irrigates the plants in the cemeteries with the lake water extracted from the automatic irrigation system.

During the reporting period, the relevant data about the Group's usage of resources are set forth below:

Energy consumption	Energy	Total energy consumption		Energy consumption per square meter ¹	
		Year 2020/21	Year 2019/20	Year 2020/21	Year 2019/20
KPI2.1

¹ We have collected the data about the area of the offices and cemeteries of Zhejiang Anxian Yuan, Zunyi Dashenshan, Yin Chuan Fu Shou Yuan, Anxian Yuan, Zhong Fu Yuan Lin and Anxian Yuan (Zhejiang) Investment as the basis for calculation of energy consumption intensity and water consumption intensity

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

OUR GREEN ACTIONS

We have established a comprehensive internal corporate culture to safeguard the interests of all stakeholders and will continue to disclose our results on our website and in the annual Environmental, Social and Governance Report. Although certain parts of our corporate culture are not filed in written record, the internal management and the all staff members consider the environment and the society as their primary concern and they are committed to reducing the use of natural resources and protecting the environment.

Cemetery Greening

Taking into account the use of electricity resources in the course of business, the solid waste generated and the greenhouse gas indirectly produced, the Group strives to enhance the greening rate of all cemeteries and reduce emission of greenhouse gas by increasing the coverage of green plantation in order to relieve global warming. The Group is currently operating three main cemeteries, namely Zhejiang Anxian Yuan, Yin Chuan Fu Shou Yuan and Zunyi Dashenshan, the greening rates of which are 65%, 56% and 91% (year 2019/20: 65%, 55% and 89%), respectively. The Group endeavours to raise the greening rate of all cemeteries and plans to make every cemetery a green eco-park.

Zhejiang Anxian Yuan

Zunyi Dashenshan

Yin Chuan Fu Shou Yuan

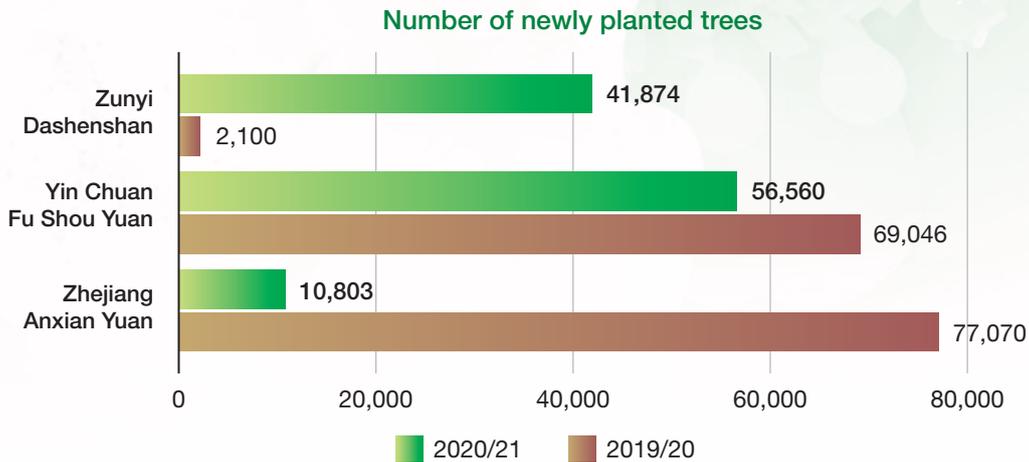

Furthermore, taking into account the air pollution caused by the incense and offerings burnt by grave sweepers during the graveside rituals, the Group provides grave sweepers with flowers to advocate civilised graveside rituals.

We make a greening plan for every year which mainly focuses on planning the greening and plantation for the next year. Furthermore, the Group also organises tree planting activities in the cemeteries and invites customers of Anxian Yuan, primary school students and other citizens to join every year. In addition to planting new trees to increase the green area of the cemeteries, the Group also wishes to advocate the awareness of environmental protection and staying close to the nature and, at the same time, reduce the emission of greenhouse gas.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

The data about our newly planted trees during the reporting period are set forth below:

Civilised Graveside Rituals

Tradition graveside rituals include burning incense and offerings and lighting firework and firecrackers which would release tremendous amount of smoke, particulate matter (PM2.5) and ashes, resulting in air pollution. However, along with the promotion and popularisation of civilised and green graveside rituals, we introduce a brand-new measure for green graveside rituals with a hope to preserve the traditional and religious culture while reducing the harm to the health and improving the environmental quality in order to become a smokeless cemetery. We strictly comply with the requirements of the government authorities and forbid customers to burn incense and offerings and light firework and firecrackers in funeral service facilities such as cemeteries. We have also set up a spot at lobby to sell products for graveside rituals and sell plastic flowers to citizens in order to advocate civilised graveside rituals.

Green Burial

We are committed to promoting green burial and advocating diversified burial methods which take up less space and are non-polluting. In addition to traditional burial service, we also provide ecological funerals and burials including new burial methods such as tree-planting burial, flower bed burial, lawn burial and wall burial.

Tree-planting Burial

Modern tree-planting burial is a new way of burial. Tree-planting burial is to bury the bone ashes under a specified tree or scatter the bone ashes on the soil and plant a tree on it as a memorial, replacing grave facilities with memorial trees or natural stones.

Lawn Burial

Lawn burial is to bury the bone ashes under a piece of lawn which not only fulfils the wish of the deceased for returning to nature but also realises a civilised and environmentally friendly way of burial.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

Flower Bed Burial

In replacement of tombs, flower bed burial uses specialised degradable casket under a flower bed and flowers are planted thereon. The flower bed is reusable and it takes up a little space. Not only does it conserve land resources, but also brightens up the cemetery.

Wall Burial

Wall burial is a way of burial where caskets are placed in niches which conserves land effectively. Niche walls are of similar heights to normal walls with square niches on the front side where caskets are placed. The niches are sealed with gypsum with the outward appearance as a headstone.

VALUING TALENTS

Our Team

With the aging of the population intensified and urbanisation accelerated in the PRC, the funeral industry in the PRC will sustain a prolonged rapid development in the future as funeral service concerns thousands of households. The Group has always been making significant contributions and implementing diversified management in respect of society, including organising elderly care activities, providing employees with a safe and healthy working environment, offering employees with relevant trainings and jointly establishing a cooperative and friendly working environment with employees.

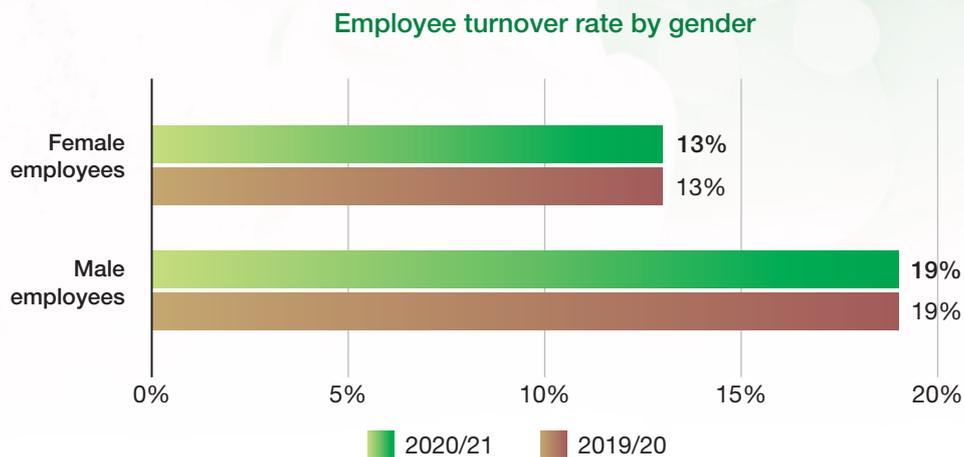

As of 31 March 2021, our employment structure is as follow:

Employee structure by gender

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

During the reporting year, a total of 43 employees resigned and the proportion of male and female employee turnover rate is as follow:

TALENT RECRUITMENT AND RETAINMENT

We believe that the success and development of the Group's business are attributable to the devotion and contribution of employees. Hence, we proactively invest resources and provide good salary and benefits to attract talents.

Annual Salary Adjustment

We wish to share the economical achievement of the Group with our employees. We perform a general salary adjustment every year and raise the monthly salary of the employees to commend all employees for their contribution during the year. Annual salary adjustment allows us to ensure the market competitiveness of the salary we offer and attract exceptional talents in the market and retain our capable employees.

Luncheon Voucher and Staff Canteen

We have established staff canteens which not only provides a comfortable environment, but also a free, healthy and diversified staff lunch to restore employees' energy for the whole day of work. Although there is no canteen in certain project companies under the Group, we provide these employees with luncheon vouchers which allow them to have lunch at the restaurants nearby the companies for free.

Valuing the Physical and Mental Health of Employees

We value the physical and mental health of our employees. Hence, the Group has adopted a standard working hour system which limits the working hours of the employees to be under 8 hours per day. The Group strictly complies with the national requirements and ensure that the employees are able to enjoy all statutory holidays and leaves for visiting relatives, wedding ceremonies and funerals, maternity leaves and paid annual leaves. To ensure the personal health of the employees, all employees are subject to a health check organised by the Group before induction.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

STAFF TRAINING

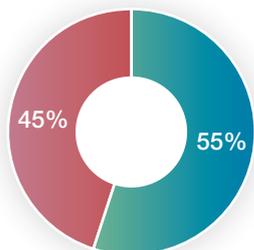

As talent cultivation is critical to the future development of the Group, the Group spares no effort on talent development and training. In order to strengthen the knowledge and skills of the employees necessary for the performance of duties, the Group conducts a survey on its employees every December concerning their feedbacks on the content of the trainings, the results of which would reflect employees' concerned topics for the work training and allow the Group to organise suitable training courses based on the needs of the corporate development. The Group also provides trainings based on the types of occupations in the funeral and burial industry specified by the Ministry of Civil Affairs and Ministry of Human Resources and Social Security in order to ensure relevant employees obtains qualified licenses.

During the reporting year, the total training hours for the Group's employees was 802 hours (year 2019/20: 2,110 hours). Due to the impact of the pandemic, large-scale training activities were unable to be organised, thus the training time decreased as compared with the previous year. The average complete hours for each male and female employee are set out below:

	Year 2020/21	Year 2019/20
Average training hours of male employees	3.28 hours	8.95 hours
Average training hours of female employees	2.73 hours	7.92 hours

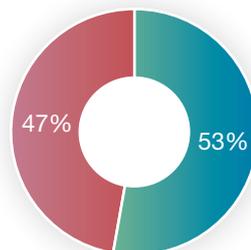

The proportion of employees receiving trainings by gender is as follows:

Employees receiving trainings by gender (2020/21)

● Male employees ● Female employees

Employees receiving trainings by gender (2019/20)

● Male employees ● Female employees

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

Job-Related Knowledge Training

We understand the importance of inspiring talents' potential through training. We are committed to promoting on-the-job trainings and providing employees with trainings for skills required in their job duties in order to further consolidate their job-related knowledge.

Induction Training

We attach importance to every new employee. In order to help our employees integrate into the company environment as soon as possible and recognise our culture, we provide new employees with induction trainings and introduce to them the Group's history, basic workflow, code of conduct and company structure, so that they can promptly throw themselves into work and enjoy it.

Fire Safety Training

Due to the potential fire risk caused by grave-sweeping activities, we regularly provide fire safety trainings and fire drills for employees to raise their awareness on fire safety.

Marketing Skills Training

Leveraging marketing skills trainings, our marketing officers share their marketing skills and experience in order to maintain their competitiveness and enhance their professional and personal development. To facilitate business development, we also hold joint marketing meetings regularly to review performance and praise outstanding employees with a view to enhance the team's morale and build a high-performing team.

Funeral Service Training

We also spare no effort in our service training, striving to cultivate a high-quality service team which can provide premium services. Therefore, to continuously consolidate employees' knowledge about funeral and burial and maintain the service standard, we provide funeral service training regularly, such as "Etiquette Training" and "Training on Funeral Service Quality and Public Satisfaction". The Group also provides trainings based on the types of occupations in the funeral and burial industry specified by the Ministry of Civil Affairs and Ministry of Labor Indemnification in order to ensure relevant employees obtains qualified licenses.

Professional Qualification

We support our staff to pursue continuous education and encourage personnel from the finance department, engineering department and human resources department to participate in vocational qualification examinations to obtain relevant professional qualifications. At the beginning of each year, we plan the total amount of funding for examinations during the year to ensure that eligible employees receive relevant funding. We will also continue to pay attention to the timetable for relevant examinations so as to timely remind or advise our employees to participate in suitable professional qualification examinations. We are also committed to fully subsidise the expense of staff for participation in examinations.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

AWARDS AND RECOGNITION

As a member of China Funeral Association, Anxian Yuan was accredited, for several times, as an advanced enterprise for municipal funeral service, standard municipal cemetery, municipal green model enterprise, regional civilised enterprise and regional model cemetery by its own effort under the guidance and support from provincial and municipal government. In 2006, the Group passed the “Three in One” (quality, environment, and health and safety) international standard certification and in 2009, the Group was accredited by Zhejiang Provincial Archives as an outstanding enterprise. During the reporting year, the Group was awarded the honorary titles of “Creditworthy Enterprise in Celebrating the 70th anniversary of the founding of the PRC of the Chambers of Commerce in Hangzhou” and “Green · Caring Alliance Unit”, and also awarded an honorary certificate by the Ningxia Hui Autonomous Region Funeral Association of the China Funeral Association, which reflects our excellent staff quality, distinguished management standards and positive social image.

EMPHASIS ON POLICIES

DIVERSITY POLICY

We attach significant importance to the principle of discrimination-free management and strive to create a diversified working environment. For the composition of the Board, the Group has implemented diversity policy and established a nomination committee as of now to regularly review the structure, scale and composition of the Board.

The nomination committee selects members of the Board based on the different aspects set out in the diversity policy, including but not limited to gender, age, culture and education background, professional qualification, skills, knowledge and industrial and regional experience. The finally selected directors shall have certain advantages in the above factors and shall be able to contribute to the Board in order to achieve the diversity purpose of the Board. Currently, the directors of the Group have different backgrounds and possess sufficient relevant experience and professional background, such as financial accounting, which allows them to complement each other for the governance of the Company and form a relatively all-inclusive corporate governance system. The nomination committee is responsible for the continuous review of the composition of the Board to ensure the lasting effectiveness of the diversity policy.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

EQUAL OPPORTUNITIES AND DIVERSIFICATION AND ACCEPTANCE

The Group is committed to establishing an open, fair, just and reasonable competition for talents. We attach great importance to the appointment of talents and also focus on the training of personnel. We strive to create a stable working environment with diversification and acceptance and provide excellent remuneration and benefits to attract and retain talents.

According to the diversity policy, apart from the members of the Board, we also apply the discrimination-free, diversification and acceptance principle to the working environment of other employees and strive to provide an accepting, harassment-free, non-discriminatory and harmonious working environment. In accordance with the relevant laws and regulations including Employment Ordinance, the Labor Law of the People's Republic of China and the Labor Contract Law of the People's Republic of China, the Group has formulated staff manual which covers recruitment, remuneration, promotion, dismissal, working hour, holiday, equal opportunity, diversification, antidiscrimination and other treatments and benefits. The Group has strictly complied with the laws and regulations related to employment and labor which have significant impact on the Group. We determine a fair remuneration according the staff contribution and market standards.

Meanwhile, the Group also undertakes that the recruitment, promotion and dismissal decisions are based on performance through a fair and transparent process and not affected by race, ethnicity, nationality, religion, gender, age and disability, and offers all employees with equal opportunities. Currently, the male and female employees of the Group account for an approximate proportion and both are entitled to the same career development opportunities and benefits. For instance, both male and female employees can receive the same trainings. During the reporting year, the average hours of training completed by male and female employees are close.

At the same time, the Group has zero tolerance towards discrimination or harassment acts at any workplaces. We will take corresponding actions if any act of discrimination or harassment is discovered. In the future, we will continue to deepen the diversity policy to create an inclusive and diversified working environment.

LABOR STANDARDS

To avoid child labor and forced labor, the Group has stringent requirements on the selection of employees. When recruiting employees below the management level, the Group performs background check on applicants and requires them to provide identity card, proof of highest education, professional qualifications (such as driver license and engineer license) and certificate of resignation. Foreign applicants are required to present their work permit to verify their identity.

In the event that the management discovered child labor or forced labor against the regulations, the Company would immediately terminate relevant contracts and impose appropriate punishment on the employee ascertained to be responsible for the illegal employment.

During the reporting year, there was no child labor and forced labor in the Group.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

HEALTH AND SAFETY

In order to provide employees with a safe working environment and protect employees from occupational hazards, the Group has provided employees with adequate health and safety measures and trainings and purchased sufficient social insurances for all employees. The Group also strictly complies with the safety regulations in all regions, including the Occupational Safety and Health Ordinance and Regulation on Work-Related Injury Insurances.

Save for the aforementioned measures, the Group has purchased group safety insurances for employees of engineering departments to enhance the protection of employees when accidents occur. In addition, other than purchasing social insurances for employees by the Group, Hangzhou Anxian Yuan also purchases commercial accident insurances to safeguard employees' interests. Employees are generally not required to perform overhead work. Whenever working in mountainous areas is necessary, employees are required by the Group to take precautions against accidents. Furthermore, the Group purchases safety equipment necessary for work for the employees to ensure employees' safety.

During the reporting year, there were no work-related fatalities in the Group. However, during the reporting year, there was one minor work-related injury, which the employee concerned has been provided with medical coverage through social insurance. The number of working days lost due to work-related injury was 30 days. In response to the incident, we have held a special meeting and strengthened education to enhance employees' awareness of protection and safety.

ANTI-CORRUPTION

The Group adopts zero-tolerant policy against corruption. We have formulated anti-corruption policies to prevent potential bribery, blackmail, fraud, money laundry and gambling, and encourage employees to give opinions and report to their superiors and the chief executive officer or express their views directly through emails. The Group also guarantees that the information in relation to the opinions and reports submitted by all employees is kept confidential.

In addition, the Group also annually assesses employees' working competence and psychological quality and has established a penalty and reward system to enhance employees' sense of belonging to the Company and reduce the possibility of crimes committed by employees.

During the reporting year, the Group was not involved in any legal proceedings in relation to corruption.

EMPHASIS ON SUPPLY CHAIN MANAGEMENT

The Group has stringent requirements on the selection of suppliers.

The Group only selects suppliers which satisfy the following requirements: 1) having industry and commercial and tax registration certificate; 2) having good integrity filing records; 3) complying with national laws and regulations in the course of operation; 4) having certain operation scale and considerable reputation in the industry; 5) being up to standards for the services and products provided; 6) having sound after-sales warranty and emergency management.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

EMPHASIS ON QUALITY

The Group has completed the trademark registration for its brand “Anxian Yuan” and the brand is thereby under legal protection of intellectual property rights. The prices of the Group’s products and services are open to public and prominently displayed at its office. The Group has also established a feedback and complaint mechanism. Customers who intend to provide feedback or file complaints can fill in the customer’s feedback form and complaint form at the customer reception center. When the customer reception center receives feedback or complaint from customers, it will contact relevant departments and handle the feedback and complaint in a timely manner.

The services and products provided by the Group are subject to a quality inspection process. For services, the Group provides employees with sufficient trainings and build up service standard through examinations and inspections. As for products, cemeteries are all constructed based on design requirements and are opened to customers only after passing the inspections performed by the engineering team in order to ensure product quality

To safeguard consumers’ information and privacy, the Group stores all clients’ information in its archives and establishes a customer file for every customer. Should any departments need to check the customer files, they are required to register in the file book and no original copy of any information shall be taken away from the archive. During the reporting year, the Group did not receive any complaints in relation to leakage of clients’ information.

EMPHASIS ON COMMUNITY

The Group understands the philosophy of “what is taken from the community is to be used for the good of the community”, and is actively giving back to society and sharing its operating results with the community. During the reporting year, the Group supported various charitable activities through donations, and donated a total of approximately RMB30,000 to counties and cities.

In addition, the strategy department of the Group is responsible for preparing community charity activity plans for the next year. Currently, most activities organised by the Group are in collaboration with other organisations.

The activities organised by the Group are mainly classified into two categories: the first category is memorials for celebrities or public figures which allows the public to have in-depth knowledge of those persons who made significant contributions to the country and society; while the second category is caring activities which target elderlies, the underprivileged minorities and families in distress. Those activities aim to care for elderlies, the underprivileged minorities and people in distress through psychological and mental care and to provide help in satisfying their basic needs through material donations. Activities organised by the Group during the reporting year include:

TO THE SHAREHOLDERS OF ANXIAN YUAN CHINA HOLDINGS LIMITED

(Incorporated in Bermuda with limited liability)

OPINION

We have audited the consolidated financial statements of Anxian Yuan China Holdings Limited (the “Company”) and its subsidiaries (collectively referred to as the “Group”) set out on pages 73 to 152, which comprise the consolidated statement of financial position as at 31 March 2021, and the consolidated statement of profit or loss, the consolidated statement of comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the consolidated financial statements give a true and fair view of the consolidated financial position of the Group as at 31 March 2021, and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards (“HKFRSs”) issued by the Hong Kong Institute of Certified Public Accountants (“HKICPA”) and have been properly prepared in compliance with the disclosure requirements of the Hong Kong Companies Ordinance.

BASIS FOR OPINION

We conducted our audit in accordance with Hong Kong Standards on Auditing (“HKSAs”) issued by the HKICPA. Our responsibilities under those standards are further described in the “Auditor’s Responsibilities for the Audit of the Consolidated Financial Statements” section of our report. We are independent of the Group in accordance with the HKICPA’s “Code of Ethics for Professional Accountants” (the “Code”), and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

INDEPENDENT AUDITOR'S REPORT

KEY AUDIT MATTERS (CONTINUED)

Impairment assessment of goodwill

Refer to note 15, and the Group's significant accounting judgements and estimates in relation to impairment assessment of goodwill as set out in note 3(i) to the consolidated financial statements.

As at 31 March 2021, goodwill of the Group amounted to HK\$13,223,000. In accordance with HKFRSs, the Group performed impairment assessment of goodwill on an annual basis. The impairment assessment was based on the recoverable amount of the cash-generating unit ("CGU") to which goodwill was allocated. Management performed the impairment assessment using the value in use calculation based on the discounted cash flows of the relevant CGU. This matter was significant to our audit because the management's assessment process on the discounted cash flows were highly judgmental and were based on assumptions, including discount rates, growth rates and expected changes to selling prices and direct costs, which were affected by expected future market or economic conditions.

The Group's disclosures of the key assumptions used by management for the value in use calculation of the relevant CGU are included in note 15 to the consolidated financial statements.

Our responses:

Our procedures in relation to management's impairment assessment of goodwill included:

- Evaluating the independent valuation firm's competence, capabilities and objectivity;
- Assessing the reasonableness of key assumptions used by management based on our knowledge of the business and industry, in particular those relating to the cash flow forecasts underlying the value in use calculation;
- Checking, on a sample basis, the accuracy and relevance of the data provided by management, such as growth rate and discount rate used;
- Conducting in-depth discussions with management and the independent valuation firm about the cash flow projections used in the value in use calculation and the appropriateness of the significant assumptions and critical judgement areas which affect the value in use calculation; and
- Benchmarking the growth rate and discount rate used in the value in use calculation against independent industry data and comparable companies.

Revenue recognition for sales of tombs and niches

Refer to note 5 and the Group's accounting policy in relation to revenue recognition as set out in note 2.4(n) to the consolidated financial statements.

For the year ended 31 March 2021, revenue from sales of tombs and niches amounted to HK\$269,960,000, which is 90% of the total revenue of the Group.

We identified the recognition of revenue from sales of tombs and niches as a key audit matter due to the significance of the amount and volume of sales transactions recognised during the year.

The Group's disclosures of revenue from sales of tombs and niches are included in note 5 to the consolidated financial statements.

INDEPENDENT AUDITOR'S REPORT

KEY AUDIT MATTERS (CONTINUED)

Revenue recognition for sales of tombs and niches (Continued)

Our responses:

Our procedures in relation to revenue recognition for sales of tombs and niches included:

- Obtaining an understanding of the key internal controls relevant to the sales of tombs and niches.
- Selecting sales transactions of tombs and niches on a sample basis and:
 - Examining the signed sales contracts to understand the relevant terms in determining when the right to use tombs and niches has passed to customers;
 - Obtaining evidence regarding the passing of the right to use tombs and niches to customers; and
 - Reconciling the amounts of recorded transactions and related receipts to the signed sale contracts of tombs and niches.

OTHER INFORMATION IN THE ANNUAL REPORT

The directors are responsible for the other information. The other information comprises the information included in the Company's annual report, but does not include the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

DIRECTORS' RESPONSIBILITIES FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The directors are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with HKFRSs issued by the HKICPA and the disclosure requirements of the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors of the Company either intend to liquidate the Group or to cease operations or have no realistic alternative but to do so.

The directors are also responsible for overseeing the Group's financial reporting process. The Audit Committee assists the directors of the Company in discharging their responsibilities in this regard.

INDEPENDENT AUDITOR'S REPORT

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. This report is made solely to you, as a body, in accordance with Section 90 of the Bermuda Companies Act 1981, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSA's will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with HKSA's, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with the Audit Committee regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

INDEPENDENT AUDITOR'S REPORT

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

We also provide the Audit Committee with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with the directors, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 March 2021

1. CORPORATE AND GROUP INFORMATION

Anxian Yuan China Holdings Limited (the “Company”) is a limited liability company incorporated in Bermuda and domiciled in Hong Kong. The registered office of the Company is located at Clarendon House, 2 Church Street, Hamilton HM 11, Bermuda. The Company’s principal place of business in Hong Kong is Room 1215, Leighton Centre, 77 Leighton Road, Causeway Bay, Hong Kong. The Company’s shares are listed on the Main Board of The Stock Exchange of Hong Kong Limited (the “Stock Exchange”).

The principal activity of the Company is investment holding. The principal activities and other particulars of the principal subsidiaries are set out as below. The Company and its subsidiaries’ (collectively referred as the “Group”) principal places of business are in Hong Kong and the People’s Republic of China (the “PRC”).

On 14 March 2020, Anxian Yuan (Zhejiang) Investment Management Company Limited[^] (“Anxian Yuan (Zhejiang)”) and the investment partners (“Partners”) entered into a non-legally binding memorandum of understanding (“MOU”) in relation to possible investment by Anxian Yuan (Zhejiang) in 阜陽市天壽園陵園管理有限公司 (Fuyang Tianshouyuan Cemetery Management Co., Ltd.[^]) (the “Target Company”) by way of capital injection and its development of a commercial cemetery, subject to the entering into the formal agreement. Pursuant to the MOU, Anxian Yuan (Zhejiang) and the Partners agreed to invest in the first phase of the commercial cemetery with an aggregate amount of RMB90 million (approximately of HK\$98.5 million). Upon completion of the capital injection, the pay in capital of the Target Company shall be increased from RMB10 million (approximately of HK\$10.9 million) to RMB30 million (approximately of HK\$32.9 million) while the respective shareholding of the Company and the Partners would be 80% and 20%.

On 13 September 2020, as Anxian Yuan (Zhejiang) and the Partners were unable to reach an agreement on the terms of the formal agreement after negotiations in good faith during such period. Accordingly, the MOU lapsed on that date and the parties thereto would no longer pursue the investment in Target Company. In the opinion of the directors of the Company, the termination of the MOU would not have any material adverse impact on the business operation and financial position of the Group. Details of which were set out in the Company’s announcement dated 25 March 2020 and 18 September 2020, Company’s circular dated 29 April 2020 and Company’s prospectus dated 8 July 2020.

On 30 July 2020, the Company issued 1,332,817,890 rights shares, on the basis of three rights share for every two existing ordinary shares, at the subscription price of HK\$0.1 per rights share (the “Rights Issue”). The cash proceeds from the Rights Issue, before netting off all relevant expenses of approximately HK\$1,780,000, amounted to approximately HK\$133,281,000. Details of the Rights Issue are set out in the Company’s announcements dated 25 March 2020, 28 May 2020, 29 July 2020, 30 July 2020, and 18 September 2020, Company’s circular dated 29 April 2020 and Company’s prospectus dated 8 July 2020 (note 29(b)).

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 March 2021

2.1 BASIS OF PREPARATION

These financial statements have been prepared in accordance with Hong Kong Financial Reporting Standards (“HKFRSs”) (which include all Hong Kong Financial Reporting Standards, Hong Kong Accounting Standards (“HKASs”) and Interpretations (“Int”)) issued by the Hong Kong Institute of Certified Public Accountants (“HKICPA”), accounting principles generally accepted in Hong Kong and the disclosure requirements of the Hong Kong Companies Ordinance. In addition, the financial statements include applicable disclosures required by the Rules Governing the Listing of Securities on the Stock Exchange.

These financial statements have been prepared under historical cost convention, except for equity investments which were stated at fair value as explained in the accounting policies set out in note 2.4.

It should be noted that accounting estimates and assumptions are used in the preparation of these financial statements. Although these estimates are based on management’s best knowledge and judgement of current events and actions, actual results may ultimately differ from those estimates. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed in note 3.

These financial statements are presented in Hong Kong dollars (“HK\$”), which is the same as the functional currency of the Company and all values are rounded to the nearest thousand except when otherwise indicated.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 March 2021

2.2 ADOPTION OF AMENDED HKFRSs

In the current year, the Group has applied or early adopted for the first time the following amendments to HKFRSs issued by the HKICPA, which are relevant to and effective for the Group's financial statements for the annual period beginning on 1 April 2020.

Amendments to HKAS 1 and HKAS 8	Definition of Material
Amendments to HKFRS 3	Definition of a Business
Amendments to HKFRS 9, HKAS 39 and HKFRS 7	Interest Rate Benchmark Reform
Amendments to HKFRS 16	COVID-19 Related Rent Concessions

Amendments to HKAS 1 and HKAS 8 – Definition of Material

The amendments provide a new definition of material that states “information is material if omitting, misstating or obscuring it could reasonably be expected to influence decisions that the primary users of general purpose financial statements make on the basis of those financial statements”. The amendments also clarify that materiality depends on the nature or magnitude of information or both. The application of the amendments in the current year had no impact on the Group's financial statements.

Amendments to HKFRS 3 – Definition of a Business

The amendments clarify the definition of a business and introduce an optional concentration test that permits a simplified assessment of whether an acquired set of activities and assets is not a business. The election to apply the concentration test is made for each transaction. The concentration test is met if substantially all of the fair value of the gross assets acquired is concentrated in a single identifiable asset or group of similar identifiable assets. If the concentration test is met, the set of activities and assets is determined not to be a business. If the concentration test is failed, the acquired set of activities and assets is further assessed based on the elements of a business. The application of the amendments in the current year had no impact on the Group's financial statements.

Amendments to HKFRS 16 – COVID-19 Related Rent Concession

The amendments provide a practical expedient to lessees in accounting for rent concessions arising as a result of the COVID-19 pandemic, by including an additional practical expedient in HKFRS 16 that permits entities to elect not to account for rent concessions as modifications. The Group has no rent concessions noted for the year, it resulted in no impact on its financial statements due to the early application of these amendments.

The application of amended HKFRSs that are relevant to the Group and effective from the accounting period beginning on or after 1 April 2020 or not yet effective but early adopted by the Group did not have any significant impact on the Group's accounting policies and no material effect on the amounts reported and/or disclosures set out in the Group's financial statements.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 March 2021

2.3 NEW OR AMENDED HKFRSs THAT HAVE BEEN ISSUED BUT NOT YET EFFECTIVE

The following amended HKFRSs, potentially relevant to the Group's financial statements, have been issued, but are not yet effective and have not been early adopted by the Group. The Group's current intention is to apply these changes when they become effective for the accounting period beginning on or after 1 April 2020.

Amendments to HKAS 1	Classification of Liabilities as Current or Non-current and HK Interpretation 5 (2020), Presentation of Financial Statements – Classification by the Borrower of a Term Loan that Contains a Repayment on Demand Clause ⁴
Amendments to HKAS 16	Proceeds before Intended Use ²
Amendments to HKAS 37	Onerous Contracts – Cost of Fulfilling a Contract ²
Amendments to HKFRS 3	Reference to the Conceptual Framework ³
Amendments to HKAS 39, HKFRS 4, HKFRS 7, HKFRS 9 and HKFRS 16	Interest Rate Benchmark Reform – Phase 2 ¹
HKFRSs 2018-2020	Annual Improvements to HKFRSs 2018-2020 ²

¹ Effective for annual periods beginning on or after 1 January 2021

² Effective for annual periods beginning on or after 1 January 2022

³ Effective for business combinations for which the date of acquisition is on or after the beginning of the first annual period beginning on or after 1 January 2022

⁴ Effective for annual periods beginning on or after 1 January 2023

Amendments to HKAS 1 – Classification of Liabilities as Current or Non-current and HK Interpretation 5 (2020), Presentation of Financial Statements – Classification by the Borrower of a Term Loan that Contains a Repayment on Demand Clause

The amendments clarify that the classification of liabilities as current or non-current is based on rights that are in existence at the end of the reporting period, specify that classification is unaffected by expectations about whether an entity will exercise its right to defer settlement of a liability and explain that rights are in existence if covenants are complied with at the end of the reporting period. The amendments also introduce a definition of 'settlement' to make clear that settlement refers to the transfer to the counterparty of cash, equity instruments, other assets or services.

HK Interpretation 5 (2020) was revised as a consequence of the Amendments to HKAS 1 issued in August 2020. The revision to HK Interpretation 5 (2020) updates the wordings in the interpretation to align with the Amendments to HKAS 1 with no change in conclusion and do not change the existing requirements.

Amendments to HKAS 16 – Proceeds before Intended Use

The amendments prohibit deducting from the cost of an item of property, plant and equipment any proceeds from selling items produced while bringing that asset to the location and condition necessary for it to be capable of operating in the manner intended by management. Instead, the proceeds from selling such items, and the cost of producing those items, is recognised in profit or loss.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 March 2021

2.3 NEW OR AMENDED HKFRSs THAT HAVE BEEN ISSUED BUT NOT YET EFFECTIVE (CONTINUED)

Amendments to HKAS 37 – Onerous Contracts – Cost of Fulfilling a Contract

The amendments specify that the ‘cost of fulfilling’ a contract comprises the ‘costs that relate directly to the contract’. Costs that relate directly to a contract can either be incremental costs of fulfilling that contract (e.g. direct labour and materials) or an allocation of other costs that relate directly to fulfilling contracts (e.g. the allocation of the depreciation charge for an item of property, plant and equipment used in fulfilling the contract).

Amendments to HKFRS 3 – Reference to the Conceptual Framework

The amendments update HKFRS 3 so that it refers to the revised Conceptual Framework for Financial Reporting 2018 instead of the version issued in 2010. The amendments add to HKFRS 3 a requirement that, for obligations within the scope of HKAS 37, an acquirer applies HKAS 37 to determine whether at the acquisition date a present obligation exists as a result of past events. For a levy that would be within the scope of HK(IFRIC)-Int 21 Levies, the acquirer applies HK(IFRIC)-Int 21 to determine whether the obligating event that gives rise to a liability to pay the levy has occurred by the acquisition date. The amendments also add an explicit statement that an acquirer does not recognise contingent assets acquired in a business combination.

Amendments to HKAS 39, HKFRS 4, HKFRS 7, HKFRS 9 and HKFRS 16 – Interest Rate Benchmark Reform – Phase 2

The amendments address issues that might affect financial reporting when a company replaces the old interest rate benchmark with an alternative benchmark rate as a result of the interest rate benchmark reform (the “Reform”). The amendments complement those issued in November 2019 and relate to (a) changes to contractual cash flows in which an entity will not have to derecognise or adjust the carrying amount of financial instruments for changes required by the Reform, but will instead update the effective interest rate to reflect the change to the alternative benchmark rate; (b) hedge accounting in which an entity will not have to discontinue its hedge accounting solely because it makes changes required by the Reform, if the hedge meets other hedge accounting criteria; and (c) disclosures in which an entity will be required to disclose information about new risks arising from the Reform and how it manages the transition to alternative benchmark rates.

Annual Improvements to HKFRSs 2018-2020

The annual improvements amends a number of standards, including:

- HKFRS 1 – First-time Adoption of Hong Kong Financial Reporting Standards, which permit a subsidiary that applies paragraph D16(a) of HKFRS 1 to measure cumulative translation differences using the amounts reported by its parent, based on the parent’s date of transition to HKFRSs.
- HKFRS 9 – Financial Instruments, which clarify the fees included in the ‘10 per cent’ test in paragraph B3.3.6 of HKFRS 9 in assessing whether to derecognise a financial liability, explaining that only fees paid or received between the entity and the lender, including fees paid or received by either the entity or the lender on other’s behalf are included.
- HKFRS 16 – Leases, which amend Illustrative Example 13 to remove the illustration of reimbursement of leasehold improvements by the lessor in order to resolve any potential confusion regarding the treatment of lease incentives that might arise because of how lease incentives are illustrated in that example.

The Group is not yet in a position to state whether these amendments will result in substantial changes to the Group’s accounting policies and financial statements.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 March 2021

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(a) Business combinations and basis of consolidation

The consolidated financial statements comprise the financial statements of the Company and its subsidiaries. Profit or loss and each component of other comprehensive income are attributed to the owners of the Company of the Group and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance. All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

The financial statements of the subsidiaries are prepared for the same reporting period as the Company, using consistent accounting policies.

The results of subsidiaries are consolidated from the date on which the Group obtains control, and continue to be consolidated until the date that such control ceases.

Business combinations are accounted for using acquisition method when the acquired set of activities and assets meets the definition of a business and control is transferred to the Group. In determining whether a particular set of activities and assets is a business, the Group assesses whether the set of assets and activities acquired includes, at a minimum, an input and substantive processes and whether the acquired set has the ability to produce outputs. The consideration transferred is measured at the acquisition date fair value which is the sum of the acquisition date fair values of assets transferred by the Group, liabilities assumed by the Group to the former owners of the acquiree and the equity interests issued by the Group in exchange for control of the acquiree. For each business combination, the Group elects whether to measure non-controlling interests in the acquiree that are present ownership interests and entitle their holders to a proportionate share of net assets in the event of liquidation at fair value or at the proportionate share of the acquiree's identifiable net assets. All other components of non-controlling interests are measured at fair value. Acquisition-related costs are expensed as incurred.

When the Group acquires a business, it assesses the financial assets and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic circumstances and pertinent conditions as at the acquisition date. This includes the separation of embedded derivatives in host contracts of the acquiree.

If the business combination is achieved in stages, the previously held equity interest is remeasured at its acquisition date fair value and any resulting gain or loss is recognised in profit or loss.

Any contingent consideration to be transferred by the acquirer is recognised at fair value at the acquisition date. Contingent consideration classified as an asset or liability is measured at fair value with changes in fair value recognised in profit or loss. Contingent consideration that is classified as equity is not remeasured and subsequent settlement is accounted for within equity.

If the Group loses control over a subsidiary, it derecognises (i) the assets (including goodwill) and liabilities of the subsidiary, (ii) the carrying amount of any non-controlling interests and (iii) the cumulative translation differences recorded in equity; and recognises (i) the fair value of the consideration received, (ii) the fair value of any investment retained and (iii) any resulting surplus or deficit in profit or loss. The Group's share of components previously recognised in other comprehensive income is reclassified to profit or loss or retained profits, as appropriate, on the same basis as would be required if the Group had directly disposed of the related assets or liabilities.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(b) Subsidiaries

A subsidiary is an entity (including a structured entity), directly or indirectly, controlled by the Company. Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee (i.e. existing rights that give the Group the current ability to direct the relevant activities of the investee).

When the Company has, directly or indirectly, less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- (a) the contractual arrangement with the other vote holders of the investee;
- (b) rights arising from other contractual arrangements; and
- (c) the Group's voting rights and potential voting rights.

The Group reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control described above. A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction.

In the Company's statement of financial position, investments in subsidiaries are stated at cost less impairment losses, if any. The results of subsidiaries are accounted for by the Company on the basis of dividend received and receivable.

(c) Goodwill

Goodwill is initially measured at cost, being the excess of the aggregate of the consideration transferred, the amount recognised for non-controlling interests and any fair value of the Group's previously held equity interests in the acquiree over the identifiable net assets acquired and liabilities assumed. If the sum of this consideration and other items is lower than the fair value of the net assets acquired, the difference is, after reassessment, recognised in profit or loss as a gain on bargain purchase.

After initial recognition, goodwill is measured at cost less any accumulated impairment losses. Goodwill is assessed for impairment annually or more frequently if events or changes in circumstances indicate that the carrying value may be impaired. The Group performs its annual impairment assessment of goodwill as at 31 March. For the purpose of impairment assessment, goodwill acquired in a business combination is, from the acquisition date, allocated to each of the Group's cash-generating unit ("CGU"), or groups of CGUs, that are expected to benefit from the synergies of the combination, irrespective of whether other assets or liabilities of the Group are assigned to those units or groups of units.

Impairment is determined by assessing the recoverable amount of the CGU (group of CGUs) to which the goodwill is allocated. Where the recoverable amount of the CGU (group of CGUs) is less than the carrying amount, an impairment loss is recognised. An impairment loss recognised for goodwill is not reversed in a subsequent period.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 March 2021

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(c) Goodwill (Continued)

Where goodwill has been allocated to a CGU (or group of CGUs) and part of the operation within that unit is disposed of, the goodwill associated with the operation disposed of is included in the carrying amount of the operation when determining the gain or loss on the disposal. Goodwill disposed of in these circumstances is measured based on the relative value of the operation disposed of and the portion of the CGU retained.

(d) Property, plant and equipment and depreciation

Property, plant and equipment, other than construction in progress, are stated at cost less accumulated depreciation and any impairment losses. When an item of property, plant and equipment is classified as held for sale or when it is part of a disposal group classified as held for sale, it is not depreciated and is accounted for in accordance with HKFRS 5. The cost of an item of property, plant and equipment comprises its purchase price and any directly attributable costs of bringing the asset to its working condition and location for its intended use.

Expenditure incurred after items of property, plant and equipment have been put into operation, such as repairs and maintenance, is normally charged to the statement of profit or loss in the period in which it is incurred. In situations where the recognition criteria are satisfied, the expenditure for a major inspection is capitalised in the carrying amount of the asset as a replacement. Where significant parts of property, plant and equipment are required to be replaced at intervals, the Group recognises such parts as individual assets with specific useful lives and depreciates them accordingly.

Depreciation is calculated on the straight-line basis to write off the cost of each item of property, plant and equipment to its residual value over its estimated useful life. The principal annual rates used for this purpose are as follows:

Buildings	5% – 6.67% or over the lease term, whichever is shorter
Furniture, fixtures and equipment	20% – 33.33%
Motor vehicles	20% – 25%
Leasehold improvements	20% or over the lease term, whichever is shorter

Where parts of an item of property, plant and equipment have different useful lives, the cost of that item is allocated on a reasonable basis among the parts and each part is depreciated separately. Residual values, useful lives and the depreciation method are reviewed, and adjusted if appropriate, at least at each financial year end.

An item of property, plant and equipment including any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss on disposal or retirement recognised in the statement of profit or loss in the year the asset is derecognised is the difference between the net sales proceeds and the carrying amount of the relevant asset.

(e) Intangible assets (other than goodwill)

Intangible assets acquired separately represent cemetery operating licences and are measured on initial recognition at cost. The cost of intangible assets acquired in a business combination is the fair value at the date of acquisition. Subsequently, intangible assets are carried at cost less accumulated amortisation and any impairment losses. Amortisation is charged in accordance with the number of tombs and niches sold.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 March 2021

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(f) Impairment of non-financial assets

Where an indication of impairment exists, or when annual impairment testing for an asset is required (other than inventories, construction contract assets, financial assets, investment properties and non-current asset/assets of a disposal group classified as held for sale), the asset's recoverable amount is estimated. An asset's recoverable amount is the higher of the asset's or CGU's value in use and its fair value less costs of disposal, and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets, in which case the recoverable amount is determined for the CGU to which the asset belongs.

An impairment loss is recognised only if the carrying amount of an asset exceeds its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. An impairment loss is charged to the statement of profit or loss in the period in which it arises in those expense categories consistent with the function of the impaired asset.

An assessment is made at the end of each reporting period as to whether there is an indication that previously recognised impairment losses may no longer exist or may have decreased. If such an indication exists, the recoverable amount is estimated. A previously recognised impairment loss of an asset other than goodwill is reversed only if there has been a change in the estimates used to determine the recoverable amount of that asset, but not to an amount higher than the carrying amount that would have been determined (net of any depreciation/amortisation) had no impairment loss been recognised for the asset in prior years. A reversal of such an impairment loss is credited to profit or loss in the period in which it arises unless the asset is carried at a revalued amount, in which case the reversal of the impairment loss is accounted for in accordance with the relevant accounting policy for that revalued asset.

(g) Cemetery assets

Cemetery assets are mainly land costs and costs incurred on public facilities to enhance better landscape and environment to the cemetery, such as tree plantation and are carried at the lower of cost less accumulated amortisation and recoverable amount prior to the commencement of development of the cemetery. Amortisation is charged to the consolidated statement of profit or loss on a straight-line method over the shorter of the remaining lease term of land and the useful life.

The principal annual rates used for this purpose are follows:

Land costs	Over the lease term
Tree plantation	5% or over the lease term, whichever is shorter
Landscape and roads	2.5% or over the lease term, whichever is shorter

Upon commencement of development of the cemetery with the intention of sale in the ordinary course of business of the Group, the proportionate carrying amounts of cemetery assets are transferred to inventories.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 March 2021

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(h) Inventories

Inventories are stated at the lower of cost and net realisable value. Inventories mainly comprising cemetery assets developed with the intention of sale in the ordinary course of business of the Group and tombstone which are determined on the weighted average cost method and first-in first-out method respectively and, in the case of work in progress and finished goods, comprises direct materials, direct labour and an appropriate proportion of overheads. Net realisable value is based on estimated selling prices less any estimated costs to be incurred to completion and disposal.

(i) Financial instruments

(i) *Financial assets*

Initial recognition and measurement

A financial asset (unless it is a trade receivable without a significant financing component) is initially measured at fair value plus, for an item not at fair value through profit or loss, transaction costs that are directly attributable to its acquisition or issue. A trade receivable without a significant financing component is initially measured at the transaction price.

All regular way purchases and sales of financial assets are recognised on the trade date, that is, the date that the Group commits to purchase or sell the asset. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the period generally established by regulation or convention in the market place.

Financial assets with embedded derivatives are considered in their entirety when determining whether their cash flows are solely payment of principal and interest.

Subsequent measurement

Debt instruments

Subsequent measurement of debt instruments depends on the Group's business model for managing the asset and the cash flow characteristics of the asset. There is one measurement category into which the Group classifies its debt instruments:

Amortised cost: Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost. Financial assets at amortised cost are subsequently measured using effective interest rate method. Interest income, foreign exchange gains and losses and impairment are recognised in profit or loss. Any gain on derecognition is recognised in profit or loss.

Equity instruments

On initial recognition of an equity investment that is not held for trading, the Group could irrevocably elect to present subsequent changes in the investment's fair value in other comprehensive income. This election is made on an investment-by-investment basis. Equity investments at fair value through other comprehensive income are measured at fair value. Dividend income is recognised in profit or loss unless the dividend income clearly represents a recovery of part of the cost of the investments. Other net gains and losses are recognised in other comprehensive income and are not reclassified to profit or loss. All other equity instruments are classified as fair value through profit or loss, whereby changes in fair value, dividends and interest income are recognised in profit or loss.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(i) Financial instruments (Continued)

(i) Financial assets (Continued)

Impairment of financial assets

The Group recognises loss allowances for expected credit losses (“ECLs”) on trade receivables and other financial assets measured at amortised cost. ECLs are measured on either of the following bases: (1) 12-month ECLs: these are ECLs that result from possible default events within 12 months after the reporting date; and (2) lifetime ECLs: these are ECLs that result from all possible default events over the expected life of a financial instrument. The maximum period considered when estimating ECLs is the maximum contractual period over which the Group is exposed to credit risk.

ECLs are a probability-weighted estimate of credit losses. Credit losses are measured as the difference between all contractual cash flows that are due to the Group in accordance with the contract and all the cash flows that the Group expects to receive. The shortfall is then discounted at an approximation to the assets’ original effective interest rate.

The Group has elected to measure loss allowances for trade receivables using HKFRS 9 simplified approach and has calculated ECLs based on lifetime ECLs. The Group has established a provision matrix that is based on the Group’s historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment.

For other financial assets measured at amortised cost, ECLs are based on the 12-month ECLs. However, when there has been a significant increase in credit risk since origination, the allowance will be based on the lifetime ECLs.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECLs, the Group considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information analysis, based on the Group’s historical experience and informed credit assessment and including forward-looking information.

The Group assumes that the credit risk on a financial asset has increased if it is more than 30 days past due.

The Group considers a financial asset to be in default when: (1) the borrower is unlikely to pay its credit obligations to the Group in full, without recourse by the Group to actions such as realising security (if any is held); and (2) the financial asset is more than 90 days past due. A financial asset is written off when there is no reasonable expectation of recovering the contractual cash flows.

Interest income on credit-impaired financial assets is calculated based on the amortised cost (i.e. the gross carrying amount less loss allowance) of the financial asset. For non credit-impaired financial assets, interest income is calculated based on the gross carrying amount.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(i) Financial instruments (Continued)

(ii) **Financial liabilities**

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings, net of directly attributable transaction costs.

The Group's financial liabilities include trade payables, other payables and accruals, interest-bearing bank and other borrowings and lease liabilities.

Subsequent measurement

The subsequent measurement of financial liabilities depends on their classification as follows:

Loans and borrowings

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost, using effective interest rate method unless the effect of discounting would be immaterial, in which case they are stated at cost. Gains and losses are recognised in the statement of profit or loss when the liabilities are derecognised as well as through the effective interest rate amortisation process.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the effective interest rate. The effective interest rate amortisation is included in finance costs in the statement of profit or loss.

Financial guarantee contracts

Financial guarantee contracts issued by the Group are those contracts that require a payment to be made to reimburse the holder for a loss it incurs because the specified debtor fails to make a payment when due in accordance with the terms of a debt instrument. A financial guarantee contract is recognised initially as a liability at its fair value, adjusted for transaction costs that are directly attributable to the issuance of the guarantee. Subsequent to initial recognition, the Group measures the financial guarantee contract at the higher of: (i) the amount determined in accordance with the ECLs model under HKFRS 9 Financial instruments at the end of the reporting period; and (ii) the amount initially recognised less, when appropriate, cumulative amount of income recognised in accordance with the principles of HKFRS 15 Revenue from Contracts with Customers.

The fair value of financial guarantees is determined based on the present value of the difference in cash flows between the contractual payments required under the debt instrument and the payments that would be required without the guarantee, or the estimated amount that would be payable to a third party for assuming the obligations.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 March 2021

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(i) Financial instruments (Continued)

(iii) *Effective interest rate method*

The effective interest rate method is a method of calculating the amortised cost of a financial asset or financial liability and of allocating interest income or interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts or payments through the expected life of the financial asset or liability, or where appropriate, a shorter period.

(iv) *Derecognition*

The Group derecognises a financial asset when the contractual rights to the future cash flows in relation to the financial asset expire or when the financial asset has been transferred and the transfer meets the criteria for derecognition in accordance with HKFRS 9.

Financial liabilities are derecognised when the obligation specified in the relevant contract is discharged, cancelled or expires.

Where the Group issues its own equity instruments to a creditor to settle a financial liability in whole or in part as a result of renegotiating the terms of that liability, the equity instruments issued are the consideration paid and are recognised initially and measured at their fair value on the date the financial liability or part thereof is extinguished. If the fair value of the equity instruments issued cannot be reliably measured, the equity instruments are measured to reflect the fair value of the financial liability extinguished. The difference between the carrying amount of the financial liability or part thereof extinguished and the consideration paid is recognised in profit or loss for the year.

(j) Cash and cash equivalents

For the purpose of the consolidated statement of cash flows, cash and cash equivalents comprise cash on hand and demand deposits, and short-term highly liquid investments that are readily convertible into known amounts of cash, are subject to an insignificant risk of changes in value, and have a short maturity of generally within three months when acquired, less bank overdrafts which are repayable on demand and form an integral part of the Group's cash management.

For the purpose of the consolidated statement of financial position, cash and cash equivalents comprise cash on hand and at banks, including short-term deposits, and assets similar in nature to cash, which are not restricted as to use.

(k) Leasing

All leases (irrespective of whether they are operating leases or finance leases) are required to be capitalised in the statement of financial position as right-of-use assets and lease liabilities, but accounting policy choices exist for an entity to choose not to capitalise (i) leases which are short-term leases and/or (ii) leases for which the underlying asset is of low-value. The Group has elected not to recognise right-of-use assets and lease liabilities for low-value assets and leases for which at the commencement date have a lease term less than 12 months. The lease payments associated with those leases have been expensed on a straight-line basis over the lease term.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 March 2021

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(k) Leasing (Continued)

Right-of-use asset

The right-of-use asset should be recognised at cost and would comprise: (i) the amount of the initial measurement of the lease liability (see below for the accounting policy to account for lease liability); (ii) any lease payments made at or before the commencement date, less any lease incentives received; (iii) any initial direct costs incurred by the lessee and (iv) an estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset to the condition required by the terms and conditions of the lease, unless those costs are incurred to produce inventories. The Group measures the right-of-use assets for the lease properties under tenancy agreements at cost, less any accumulated depreciation and any impairment losses, and adjusted for any remeasurement of lease liability.

Right-of-use asset in which the Group is reasonably certain to obtain ownership of the underlying lease assets at the end of the lease term are depreciated from commencement date to the end of the useful life. Otherwise, right-of-use asset is depreciated on a straight-line basis over the shorter of its estimated useful life and the lease term.

Leasehold lands in the cemetery assets which are classified as right-of-use assets are measured under HKFRS 16 at the lower of cost less accumulated amortisation and recoverable amount prior to the commencement of the development of the cemetery and transfer to inventories upon commencement of development.

The Group presents right-of-use assets that do not meet the definition of cemetery assets or inventories as a separate line item in the statement of financial position.

Lease liability

The lease liability is recognised at the present value of the lease payments that are not paid at the date of commencement of the lease. The lease payments are discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the Group uses the Group's incremental borrowing rate.

The following payments for the right-to-use the underlying asset during the lease term that are not paid at the commencement date of the lease are considered to be lease payments: (i) fixed payments less any lease incentives receivable; (ii) variable lease payments that depend on an index or a rate, initially measured using the index or rate as at commencement date; (iii) amounts expected to be payable by the lessee under residual value guarantees; (iv) the exercise price of a purchase option if the lessee is reasonably certain to exercise that option and (v) payments of penalties for terminating the lease, if the lease term reflects the lessee exercising an option to terminate the lease.

Subsequent to the commencement date, the Group measures the lease liability by: (i) increasing the carrying amount to reflect interest on the lease liability; (ii) reducing the carrying amount to reflect the lease payments made; and (iii) remeasuring the carrying amount to reflect any reassessment or lease modifications, e.g., a change in future lease payments arising from change in an index or rate, a change in the lease term, a change in the in substance fixed lease payments or a change in assessment to purchase the underlying asset.

The Group presents lease liabilities as a separate line item in the statement of financial position.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 March 2021

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(k) Leasing (Continued)

Accounting as a lessor

The Group has leased out its properties to a number of tenants. Rental income from operating leases is recognised in profit or loss on a straight-line basis over the terms of the relevant leases. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised as an expense on a straight-line basis over the lease terms.

(l) Provisions

A provision is recognised when a present obligation (legal or constructive) has arisen as a result of a past event and it is probable that a future outflow of resources will be required to settle the obligation, provided that a reliable estimate can be made of the amount of the obligation.

When the effect of discounting is material, the amount recognised for a provision is the present value at the end of the reporting period of the future expenditures expected to be required to settle the obligation. The increase in the discounted present value amount arising from the passage of time is included in finance costs in the statement of profit or loss.

(m) Income tax

Income tax comprises current and deferred tax. Income tax relating to items recognised outside profit or loss is recognised outside profit or loss, either in other comprehensive income or directly in equity.

Current tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period, taking into consideration interpretations and practices prevailing in the countries in which the Group operates.

Deferred tax is provided, using the liability method, on all temporary differences at the end of the reporting period between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred tax liabilities are recognised for all taxable temporary differences, except:

- when the deferred tax liability arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; and
- in respect of taxable temporary differences associated with investments in subsidiaries and an associate, when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 March 2021

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(m) Income tax (Continued)

Deferred tax assets are recognised for all deductible temporary differences, the carryforward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, the carryforward of unused tax credits and unused tax losses can be utilised, except:

- when the deferred tax asset relating to the deductible temporary differences arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; and
- in respect of deductible temporary differences associated with investments in subsidiaries and an associate, deferred tax assets are only recognised to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilised.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are reassessed at the end of each reporting period and are recognised to the extent that it has become probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax assets and deferred tax liabilities are offset if and only if the Group has a legally enforceable right to set off current tax assets and current tax liabilities and the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity or different taxable entities which intend either to settle current tax liabilities and assets on a net basis, or to realise the assets and settle the liabilities simultaneously, in each future period in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered.

(n) Revenue recognition

Revenue from contracts with customers is recognised when control of goods or services is transferred to the customers at an amount that reflects the consideration to which the Group expects to be entitled in exchange for those goods or services, excluding those amounts collected on behalf of third parties. Revenue excludes value added tax or other sales taxes and is after deduction of any trade discounts.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 March 2021

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(n) Revenue recognition (Continued)

Depending on the terms of the contract and the laws that apply to the contract, control of the goods or service may be transferred over time or at a point in time. Control of the goods or service is transferred over time if the Group's performance:

- provides all of the benefits received and consumed simultaneously by the customer;
- creates or enhances an asset that the customer controls as the Group performs; or
- does not create an asset with an alternative use to the Group and the Group has an enforceable right to payment for performance completed to date.

If control of the goods or services transfers over time, revenue is recognised over the period of the contract by reference to the progress towards complete satisfaction of that performance obligation. Otherwise, revenue is recognised at a point in time when the customer obtains control of the goods or service.

When the contract contains a financing component which provides the customer a significant benefit of financing the transfer of goods or services to the customer for more than one year, revenue is measured at the present value of the amounts receivable, discounted using the discount rate that would be reflected in a separate financing transaction between the Group and the customer at contract inception. Where the contract contains a financing component which provides a significant financing benefit to the Group, revenue recognised under that contract includes the interest expense accreted on the contract liability under the effective interest method. For contracts where the period between the payment and the transfer of the promised goods or services is one year or less, the transaction price is not adjusted for the effects of a significant financing component, using the practical expedient in HKFRS 15.

A contract liability represents the Group's obligation to transfer goods or services to a customer for which the Group has received consideration (or an amount of consideration is due) from the customer.

Various sources of revenue of the Group is recognised on the following bases:

- (a) Sales of tombs and niches (i.e. contracts with multiple performance obligations, including allocation of transaction price), customers obtain control of the tombs and niches when they are delivered to and have been accepted by the customers being when the right to use the tombs and niches has passed. Revenue is thus recognised at that point in time.

For contracts that contain more than one performance obligations (sales of tombs and niches together with provision of cemetery management services), the Group allocates the transaction price to each performance obligation on a relative stand-alone selling price basis.

(n) Revenue recognition (Continued)

(a) (Continued)

The stand-alone selling price of the distinct good or service underlying each performance obligation is determined at contract inception. It represents the price at which the Group would sell a promised good or service separately to a customer. If a stand-alone selling price is not directly observable, the Group estimates it using appropriate techniques such that the transaction price ultimately allocated to any performance obligation reflects the amount of consideration to which the Group expects to be entitled in exchange for transferring the promised goods or services to the customer;

(b) Income from burial services is recognised over time as those services are provided;

(c) Management fee income which are bundled with sales of tombs and niches set out in note (a) above is recognised over time based on the allocated transaction price and amortised on a straight line basis over the contract terms. Management fee income separately billed after the expiration of a stated period set out in the sales contracts of tombs and niches is recognised over time on a straight line basis over the contract terms; and

(d) Interest income, on an accrual basis using effective interest rate method by applying the rate that exactly discounts the estimated future cash receipts over the expected life of the financial instrument or a shorter period, when appropriate, to the net carrying amount of the financial asset.

(o) Share-based compensation

The Company operates a share option scheme for the purpose of providing incentives and rewards to eligible participants who contribute to the success of the Group's operations. Employees (including directors) of the Group receive remuneration in the form of share-based payments, whereby employees render services as consideration for equity instruments ("equity-settled transactions").

The cost of equity-settled transactions with employees for grants is measured by reference to the fair value at the date at which they are granted.

The cost of equity-settled transactions is recognised in employee benefit expense, together with a corresponding increase in equity, over the period in which the performance and/or service conditions are fulfilled. The cumulative expense recognised for equity-settled transactions at the end of each reporting period until the vesting date reflects the extent to which the vesting period has expired and the Group's best estimate of the number of equity instruments that will ultimately vest. The charge or credit to the statement of profit or loss for a period represents the movement in the cumulative expense recognised as at the beginning and end of that period.

Service and non-market performance conditions are not taken into account when determining the grant date fair value of awards, but the likelihood of the conditions being met is assessed as part of the Group's best estimate of the number of equity instruments that will ultimately vest. Market performance conditions are reflected within the grant date fair value. Any other conditions attached to an award, but without an associated service requirement, are considered to be non-vesting conditions. Non-vesting conditions are reflected in the fair value of an award and lead to an immediate expensing of an award unless there are also service and/or performance conditions.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 March 2021

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(o) **Share-based compensation (Continued)**

For awards that do not ultimately vest because non-market performance and/or service conditions have not been met, no expense is recognised. Where awards include a market or non-vesting condition, the transactions are treated as vesting irrespective of whether the market or non-vesting condition is satisfied, provided that all other performance and/or service conditions are satisfied.

Where the terms of an equity-settled award are modified, as a minimum an expense is recognised as if the terms had not been modified, if the original terms of the award are met. In addition, an expense is recognised for any modification that increases the total fair value of the share-based payments, or is otherwise beneficial to the employee as measured at the date of modification.

Where an equity-settled award is cancelled, it is treated as if it had vested on the date of cancellation, and any expense not yet recognised for the award is recognised immediately. This includes any award where non-vesting conditions within the control of either the Group or the employee are not met. However, if a new award is substituted for the cancelled award, and is designated as a replacement award on the date that it is granted, the cancelled and new awards are treated as if they were a modification of the original award, as described in the previous paragraph.

The dilutive effect of outstanding options is reflected as additional share dilution in the computation of earnings per share.

(p) **Other employee benefits**

Short-term employee benefits

Employee entitlements to annual leave are recognised when they are accrued to employees. A provision is made for the estimated liability for unused annual leave as a result of services rendered by employees up to the reporting date. Non-accumulating compensated absences such as sick leave and maternity leave are not recognised until the time of leave.

Pension scheme

The Group operates a defined contribution Mandatory Provident Fund retirement benefit scheme (the “MPF Scheme”) under the Mandatory Provident Fund Schemes Ordinance for all of its employees. Contributions are made based on a percentage of the employees’ basic salaries and are charged to the statement of profit or loss as they become payable in accordance with the rules of the MPF Scheme. The assets of the MPF Scheme are held separately from those of the Group in an independently administered fund. The Group’s employer contributions vest fully with the employees when contributed into the MPF Scheme.

(q) **Borrowing costs**

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, i.e., assets that necessarily take a substantial period of time to get ready for their intended use or sale, are capitalised as part of the cost of those assets. The capitalisation of such borrowing costs ceases when the assets are substantially ready for their intended use or sale. Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs capitalised. All other borrowing costs are expensed in the period in which they are incurred. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(r) Dividends

Final dividends are recognised as liabilities when they are approved by the shareholders in a general meeting.

Interim dividends are simultaneously proposed and declared, because the Company's memorandum and articles of association grant the directors the authority to declare interim dividends. Consequently, interim dividends are recognised immediately as liabilities when they are proposed and declared.

(s) Government grants

Government grants are not recognised until there is reasonable assurance that the Group will comply with the conditions attaching to them and that the grants will be received.

Government grants are recognised in profit or loss on a systematic basis over the periods in which the Group recognises as expenses the related costs for which the grants are intended to compensate. Specifically, government grants whose primary condition is that the Group should purchase, construct or otherwise acquire non-current assets are recognised as deferred income in the statement of financial position and transferred to profit or loss on a systematic and rational basis over the useful lives of the related assets. Government grants that are receivable as compensation for expenses or losses already incurred or for the purpose of giving immediate financial support to the Group with no future related costs are recognised in profit or loss in the period in which they become receivable.

(t) Foreign currencies

These financial statements are presented in Hong Kong dollars, which is the Company's functional currency. Each entity in the Group determines its own functional currency and items included in the financial statements of each entity are measured using that functional currency. Foreign currency transactions recorded by the entities in the Group are initially recorded using their respective functional currency rates prevailing at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency rates of exchange ruling at the end of the reporting period. Differences arising on settlement or translation of monetary items are recognised in the statement of profit or loss.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was measured. The gain or loss arising on translation of a non-monetary item measured at fair value is treated in line with the recognition of the gain or loss on change in fair value of the item (i.e. translation difference on the item whose fair value gain or loss is recognised in other comprehensive income or profit or loss is also recognised in other comprehensive income or profit or loss, respectively).

In determining the spot exchange rate to use on initial recognition of the related asset, expense or income (or part of it) on the derecognition of a non-monetary asset or non-monetary liability relating to advance consideration, the date of the transaction is the date on which the Group initially recognises the non-monetary asset or non-monetary liability arising from the advance consideration. If there are multiple payments or receipts in advance, the Group determines the transaction date for each payment or receipt of advance consideration.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(t) Foreign currencies (Continued)

The functional currencies of certain overseas subsidiaries and an associate are currencies other than the Hong Kong dollar. As at the end of the reporting period, the assets and liabilities of these entities are translated into Hong Kong dollars at the exchange rates prevailing at the end of the reporting period and their statements of profit or loss are translated into Hong Kong dollars at the average exchange rates for the year. The resulting exchange differences are recognised in other comprehensive income and accumulated in the exchange fluctuation reserve. On disposal of a foreign operation, the component of other comprehensive income relating to that particular foreign operation is recognised in the statement of profit or loss.

Any goodwill arising on the acquisition of a foreign operation and any fair value adjustments to the carrying amounts of assets and liabilities arising on acquisition are treated as assets and liabilities of the foreign operation and translated at the closing rate.

For the purpose of the consolidated statement of cash flows, the cash flows of overseas subsidiaries are translated into Hong Kong dollars at the exchange rates ruling at the dates of the cash flows. Frequently recurring cash flows of overseas subsidiaries which arise throughout the year are translated into Hong Kong dollars at the average exchange rates for the year.

(u) Fair value measurement

The Group measures its equity investments at fair value at the end of each reporting period. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either in the principal market for the asset or liability, or in the absence of a principal market, in the most advantageous market for the asset or liability. The principal or the most advantageous market must be accessible by the Group. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 March 2021

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(u) Fair value measurement (Continued)

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 – based on quoted prices (unadjusted) in active markets for identical assets or liabilities
- Level 2 – based on valuation techniques for which the lowest level input that is significant to the fair value measurement is observable, either directly or indirectly
- Level 3 – based on valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by reassessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

(v) Related parties

A party is considered to be related to the Group if:

- (a) the party is a person or a close member of that person's family and that person
 - (i) has control or joint control over the Group;
 - (ii) has significant influence over the Group; or
 - (iii) is a member of the key management personnel of the Group or of a parent of the Group;
- (b) the party is an entity where any of the following conditions applies:
 - (i) the entity and the Group are members of the same group;
 - (ii) one entity is an associate or joint venture of the other entity (or of a parent, subsidiary or fellow subsidiary of the other entity);
 - (iii) the entity and the Group are joint ventures of the same third party;
 - (iv) one entity is a joint venture of a third entity and the other entity is an associate of the third entity;
 - (v) the entity is a post-employment benefit plan for the benefit of employees of either the Group or an entity related to the Group;
 - (vi) the entity is controlled or jointly controlled by a person identified in (a);

(v) Related parties (Continued)

(b) (Continued)

- (vii) a person identified in (a)(i) has significant influence over the entity or is a member of the key management personnel of the entity (or of a parent of the entity); and
- (viii) the entity, or any member of a group of which it is a part, provides key management personnel services to the Group or to the parent of the Group.

Close members of the family of a person are those family members who may be expected to influence, or be influenced by, that person in their dealings with the entity and include:

- (i) that person's children and spouse or domestic partner;
- (ii) children of that person's spouse or domestic partner; and
- (iii) dependents of that person or that person's spouse or domestic partner.

3. SIGNIFICANT ACCOUNTING JUDGEMENTS AND ESTIMATES

The preparation of the Group's financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and their accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that could require a material adjustment to the carrying amounts of the assets or liabilities affected in the future.

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below.

(i) Impairment assessment of goodwill

The Group assesses whether goodwill is impaired at least on an annual basis. This requires an estimation of the value in use of the CGUs to which the goodwill is allocated. Estimating the value in use requires the Group to make an estimate of the expected future cash flows from the CGUs and also to choose a suitable discount rate in order to calculate the present value of those cash flows. The carrying amount of goodwill at 31 March 2021 was HK\$13,223,000 (2020: HK\$12,232,000). Further details are given in note 15 to the consolidated financial statements.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 March 2021

3. SIGNIFICANT ACCOUNTING JUDGEMENTS AND ESTIMATES (CONTINUED)

(ii) Useful lives of property, plant and equipment, cemetery assets and intangible assets

The Group determines the estimated useful lives and related depreciation or amortisation charges for its property, plant and equipment, cemetery assets and intangible assets. This estimate is based on the historical experience of the actual useful lives of property, plant and equipment, cemetery assets and intangible assets of similar nature and functions. It could change significantly as a result of competitor actions in response to severe industry cycles. Management will increase the depreciation or amortisation charge where useful lives are less than previously estimated lives, or it will write off or write down technically obsolete or non-strategic assets that have been abandoned or sold. The useful lives of property, plant and equipment, cemetery assets and intangible assets are disclosed in notes 2.4(d), (g) and (e) to the consolidated financial statements respectively.

(iii) Impairment assessment of non-financial assets (other than goodwill)

The Group assesses whether there are any indicators of impairment for all non-financial assets at the end of each reporting period. Indefinite life intangible assets are tested for impairment annually and at other times when such an indicator exists. Other non-financial assets are tested for impairment when there are indicators that the carrying amounts may not be recoverable. An impairment exists when the carrying value of an asset or a CGU exceeds its recoverable amount, which is the higher of its fair value less costs of disposal and its value in use. The calculation of the fair value less costs of disposal is based on available data from binding sales transactions in an arm's length transaction of similar assets or observable market prices less incremental costs for disposing of the asset. When value in use calculations are undertaken, management must estimate the expected future cash flows from the asset or CGU and choose a suitable discount rate in order to calculate the present value of those cash flows.

(iv) Impairment assessment of financial assets at amortised costs

The Group uses a provision matrix to calculate ECLs for trade receivables. The provision rates are based on days past due for groupings of various customer segments that have similar loss patterns. The provision matrix is initially based on the Group's historical observed default rates. The Group will calibrate the matrix to adjust the historical credit loss experience with forward-looking information. For other financial assets at amortised cost, measurement of ECLs are based on the 12-month ECLs. However, when there has been a significant increase in credit risk since origination, the allowance will be based on the lifetime ECLs. At each reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analysed. The assessment of the correlation among historical observed default rates, forecast economic conditions and ECLs is a significant estimate. The amount of ECLs is sensitive to changes in circumstances and forecast economic conditions. The Group's historical credit loss experience and forecast of economic conditions may also not be representative of customer's actual default in the future. The information about the ECLs on the Group's financial assets at amortised cost is disclosed in note 40(iii) to the consolidated financial statements.

(v) Deferred tax

Deferred tax assets are recognised for all unused tax losses to the extent that it is probable that taxable profit will be available against which the losses can be utilised. Significant management judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and level of future taxable profits together with future tax planning strategies. Further details are set out in note 18 to the consolidated financial statements.

5. REVENUE, OTHER INCOME AND GAINS

(i) Disaggregation of revenue from contracts with customers

In the following table, revenue is disaggregated by major products and services and timing of revenue recognition. The Group has only one reportable operating segment which is the cemetery business in the PRC, and the disaggregated geographic information of revenue has been set out in note 4(a).

	2021 HK\$'000	2020 HK\$'000
Revenue by products and services		
Sales of tombs and niches	269,960	266,643

Others	1,053	1,096
	6,008	1,803

(ii) Performance obligation for contracts with customers

Sales of tombs and niches with management services (multiple performance obligations)

For contracts entered into with customers on sales of tombs and niches, the relevant tombs and niches specified in the contracts have no alternative use to the Group. Taking into consideration of the relevant legal precedent, the Group concluded that it does not have an enforceable right to payment prior to transfer of the right to use of tombs and niches to customers. Revenue from sales of tombs and niches is therefore recognised at a point in time when the tombs and niches are transferred to customers, being at the point that the customer obtains the right to use of tombs and niches and the Group has present right to payment and collection of the consideration is probable.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 March 2021

5. REVENUE, OTHER INCOME AND GAINS (CONTINUED)

(ii) Performance obligation for contracts with customers (Continued)

Sales of tombs and niches with management services (multiple performance obligations) (Continued)

The cemetery management service is considered to be a distinct service. Transaction price is allocated between sales of tombs and niches and the management services on a relative stand-alone selling price basis. An explicit management fee will be received after the expiration of a stated period set out in sales contracts of tombs and niches. Revenue relating to the management services is recognised over time. The transaction price allocated to these services is recognised as a contract liability at the time of the initial sales transaction and is released on a straight line basis over the period of service.

The Group applies the practical expedient of expensing all incremental costs to obtain a contract if these costs would otherwise have been fully amortised to profit or loss within one year.

Provision of burial services

Burial services represented revenues from miscellaneous services such as the organisation and conducting of burial rituals, the design and landscaping of the burial sites and additional engraving fee. Revenue relating to these burial services is recognised over time.

6. PROFIT BEFORE INCOME TAX

Profit before income tax is arrived at after charging/(crediting):

	2021 HK\$'000	2020 HK\$'000
Cost of inventories sold recognised as expense, including	62,699	85,655

7. FINANCE COSTS

An analysis of finance costs is as follows:

	2021 HK\$'000	2020 HK\$'000
Interest on lease liabilities (<i>note 28</i>)	164	161
Interest on interest-bearing bank and other borrowings	7,327	10,006
Less: Interest capitalised	(4,488)	(6,049)
	3,003	4,118

Borrowing costs capitalised during the year arose on the general borrowing pool and are calculated by applying a capitalisation rate of 5.24% (2020: 5.55%) per annum to the expenditure on qualifying assets.

8. DIRECTORS' AND CHIEF EXECUTIVE'S REMUNERATION

Directors' and chief executives' remuneration for the year, disclosed pursuant to the Listing Rules, section 383(1)(a), (b), (c) and (f) of the Hong Kong Companies Ordinance and Part 2 of the Companies (Disclosure of Information about Benefits of Directors) Regulation, is as follows:

10. INCOME TAX EXPENSE

The Group is subject to income tax on an entity basis on profits arising in or derived from the jurisdictions in which subsidiaries of the Group are domiciled and operate.

Pursuant to the rules and regulations of Bermuda, the Company is not subject to any income tax in that jurisdiction (2020: Nil).

No (2020: Nil) provision for Hong Kong profits tax has been made as the Group had no (2020: Nil) assessable profits derived from or earned in Hong Kong during the year.

Provision for the PRC current income tax is based on the statutory rate of 25% (2020: 25%) of the assessable profits of the PRC subsidiaries of the Group as determined in accordance with the PRC Corporate Income Tax Law.

Interim dividend paid in respect of current year of HK0.8 cent (2020: Nil) per share	17,771	–

The directors of the Company recommended a final dividend of HK1.0 cent (2020: Nil) per ordinary share in respect of the year ended 31 March 2021 which would be subject to the approval of the Company's shareholders at the forthcoming annual general meeting. The proposed dividend is not reflected as a dividend payable in these financial statements.

11. DIVIDENDS (CONTINUED)

At the board meeting held on 27 November 2020, the directors of the Company resolved to recommend an interim dividend of HK0.8 cent per ordinary share. The proposed interim dividend was paid as an appropriation of contributed surplus reserve of the Company during the year ended 31 March 2021.

12. EARNINGS PER SHARE FOR PROFIT ATTRIBUTABLE TO OWNERS OF THE COMPANY

The calculation of the basic earnings per share is based on the profit for the year attributable to owners of the Company over the weighted average number of ordinary shares of 1,845,212,000 (2020: 962,807,000 (restated)) in issue during the year.

The weighted average number of ordinary shares for the purpose of basic and diluted earnings per share for both years have been adjusted for the Rights Issue completed on 30 July 2020 (note 29(b)).

There was no potential dilutive ordinary shares outstanding during the years ended 31 March 2021 and 2020 and hence the diluted earnings per share is the same as basic earnings per share.

The calculations of basic and diluted earnings per share are based on:

	2021 HK\$'000	2020 HK\$'000

The carrying amounts of the respective CGU's goodwill are as follows:

	2021 HK\$'000	2020 HK\$'000
Yin Chuan Fu Shou Yuan	13,223	12,232

Impairment assessment was based on the recoverable amount of the CGU. In the opinion of the directors of the Company, there is no (2020: Nil) impairment of the above CGU to which goodwill is allocated as at 31 March 2021.

The recoverable amount of the above CGU is determined based on the value in use calculation performed by LCH (Asia-Pacific) Surveyors Limited, an independent firm of professional valuer. The key assumptions for the value in use calculation are those regarding the discount rate, growth rates and expected changes to selling prices and direct costs during the forecast period. Management estimates discount rate using pre-tax rate that reflects current market assessments of the time value of money and the risk specific to the CGU. The growth rates are by reference to industry growth forecasts. Changes in selling prices and direct costs are based on past practices and expectations of future changes in the market.

Major underlying assumptions are summarised below:

Value in use calculation uses cash flow projections based on financial budgets approved by the directors of the Company covering a five-year period (2020: five-year period) and a pre-tax discount rate of 16% (2020: 16%). Cash flows beyond that five-year period have been extrapolated using declining growth rates until a steady 3% (2020: 3%) growth rate is reached. This growth rate does not exceed the long-term average growth rate for the market in which the Group operates.

Cemetery assets mainly represent land costs and the construction cost of public facilities in the cemetery.

The carrying amount of leasehold lands is measured under HKFRS 16 at the lower of cost less accumulated amortisation and recoverable amount prior to the commencement of the development of the cemetery. The land costs are amortised on a straight-line basis over lease term of 50 years.

Landscape facilities represent the construction cost of public facilities in the cemetery. Amortisation for landscape facilities is provided on a straight-line basis over the shorter of the remaining lease term of land and estimated useful life of 20 to 40 years.

Upon commencement of development of an area within the cemetery, the proportionate cemetery assets are transferred to inventories.

For presentation purposes, certain deferred tax assets and liabilities have been offset in the consolidated statement of financial position. The following is an analysis of the deferred tax balances of the Group for financial reporting purposes:

	2021 HK\$'000	2020 HK\$'000
Net deferred tax liabilities recognised in the consolidated statement of financial position	(122,559)	(112,471)

The Group has tax losses arising in Hong Kong of HK\$192,245,000 (2020: HK\$180,356,000) as at 31 March 2021, subject to the agreement with the Inland Revenue Department, that are available indefinitely for offsetting against future taxable profits of the companies in which the losses arose.

Deferred tax assets have not been recognised in respect of losses which have arisen in subsidiaries that have been loss-making for some time and it is not considered probable that taxable profits will be available against which the tax losses can be utilised.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 March 2021

18. DEFERRED TAX (CONTINUED)

Deferred tax assets (Continued)

Deferred tax assets have not been recognised in respect of the following items:

	2021 HK\$'000	2020 HK\$'000
Tax losses	202,734	198,889

Deferred tax assets have not been recognised in respect of tax losses amounting to HK\$202,734,000 (2020: HK\$198,889,000) as at 31 March 2021. The tax losses amounting to HK\$10,489,000 (2020: HK\$18,533,000) as at 31 March 2021 will expire within the next 5 years for offsetting against future taxable profits. The tax losses of HK\$192,245,000 (2020: HK\$180,356,000) as at 31 March 2021 are available indefinitely for offsetting against future taxable profits in Hong Kong. Deferred tax assets have not been recognised as it is not considered probable that taxable profits will be available against which the above tax losses can be utilised.

Pursuant to the PRC Corporate Income Tax Law, 5% or 10% (2020: 5% or 10%) withholding tax is levied on dividends declared to foreign investors from the foreign investment enterprises established in the PRC. The requirement is effective from 1 January 2008 and applies to earnings after 31 December 2007.

The Group is therefore liable for withholding taxes on dividends distributed by those subsidiaries established in the PRC in respect of earnings generated from 1 January 2008.

Pursuant to the resolution of the board of directors of the Company, part of the PRC subsidiaries' profits generated from 1 January 2008 onwards will be retained by the PRC subsidiaries for use in future operations or investments in the PRC. In the opinion of the directors of the Company, it is not probable that the PRC subsidiaries will distribute such earnings in the foreseeable future. The aggregate amount of temporary differences associated with investments in subsidiaries in the PRC for which deferred tax liabilities have not been recognised approximate to HK\$87,942,000 (2020: HK\$55,855,000) in aggregate.

19. INVENTORIES

20. TRADE RECEIVABLES

	2021 HK\$'000	2020 HK\$'000
Trade receivables	1,446	1,014

The Group's trading terms with its customers are mainly on credit, except for certain customers, where payment in advance is required. The average trade credit period ranges from 30 to 365 days. The Group seeks to maintain strict control over its outstanding receivables and overdue balances are reviewed regularly and actively monitored by management to minimise credit risk.

Trade receivables are unsecured and non interest-bearing.

Ageing analysis of the trade receivables as at the end of the reporting period, based on the invoice date and net of loss allowance, if any, is as follows:

	2021 HK\$'000	2020 HK\$'000
Within 60 days	612	271

Prepayments	582	2,729
Value-added tax recoverables	886	–
Deposits and other receivables	675	660
	2,143	3,389

Quantitative disclosures in respect of the Group's exposure to credit risk arising from deposits and other receivables are set out in note 40(iii).

The directors of the Company consider that the fair value of deposits and other receivables which are expected to be recovered within one year are not materially different from their carrying amounts because of the short maturity periods on their inception.

22. LOAN TO NON-CONTROLLING SHAREHOLDER

During the year ended 31 March 2021, Anxian Yuan (Zhejiang), a wholly-owned subsidiary of the Group, granted a loan to a non-controlling shareholder of Yin Chuan Fu Shou Yuan, the subsidiary of the Group, with principal amount of RMB3,000,000 (equivalent to approximately of HK\$3,550,000). This loan is interest-bearing at 1% per annum with an effective interest rate of 4.64% per annum. The loan and the accrued interest are repayable in five years annually and secured by 30% equity interests of Yin Chuan Fu Shou Yuan held by this non-controlling shareholder.

As at 31 March 2021, cash and cash equivalents of the Group denominated in RMB amounted to HK\$164,670,000 (2020: HK\$60,007,000). RMB is not freely convertible into other currencies, however, under the PRC's Foreign Exchange Control Regulations and Administration of Settlement, Sale and Payment of Foreign Exchange Regulations, the Group is permitted to exchange RMB for other currencies through banks authorised to conduct foreign exchange business.

Cash at banks earns interest at floating rates based on daily bank deposit rates. The bank balances are deposited with creditworthy banks with no recent history of default. All cash and bank balances held at each of the reporting dates were deposited in the reputable banks and financial institutions in Hong Kong and the PRC.

The effective interest rates of the Group's short-term deposits as at 31 March 2021 ranged from 0.35% to 0.37% (2020: 1.5% to 2.6%) per annum and have original maturity period of 30 days (2020: 30 to 90 days).

Details of the Rights Issue are set out in the Company's announcements dated 25 March 2020, 28 May 2020, 29 July 2020 and 30 July 2020, the Company's circular dated 29 April 2020 and the Company's prospectus dated 8 July 2020.

All new shares issued during the years ended 31 March 2021 and 2020 rank pari passu with other shares then in issue in all respects.

30. RESERVES

The amounts of the Group's reserves and the movements therein for the current and prior years are presented in the consolidated statement of changes in equity on pages 77 to 78 of the financial statements.

Statutory reserve fund

In accordance with the relevant PRC regulations applicable to wholly-foreign-owned companies, certain entities within the Group are required to allocate a certain portion (not less than 10%), as determined by their Boards of Directors, of their profit after tax in accordance with PRC GAAP to the statutory reserve fund (the "SRF") until such reserve reaches 50% of the registered capital.

The SRF is non-distributable other than in the event of liquidation and, subject to certain restrictions set out in the relevant PRC regulations, can be used to offset accumulated losses or be capitalised as issued capital.

In accordance with the relevant regulations and the articles of association, a subsidiary registered in the PRC as a domestic company is required to appropriate 10% of its net profit (after offsetting accumulated losses from prior years) to the statutory surplus reserve. After the balance of such reserve reaches 50% of the entity's capital, any further appropriation is at the discretion of the Company. The statutory surplus reserve can be utilised to offset accumulated losses or increase capital. However, the balance of the statutory surplus reserve must be maintained at a minimum of 25% of the capital after such usages.

Distributable reserve

For dividend purposes, the amounts which the PRC companies can legally distribute by way of dividend are determined by reference to the distributable profits as reflected in their PRC statutory financial statements which are prepared in accordance with PRC GAAP. These profits differ from those that are reflected in these consolidated financial statements which are prepared in accordance with HKFRSs.

In accordance with the Company Law of the PRC, profits after tax of the PRC companies can be distributed as dividends after the appropriation to the SRF as set out above.

31. ACQUISITION OF NON-CONTROLLING INTERESTS

On 15 August 2019, the Group acquired additional 1.62% equity interests in Zhejiang Anxian Yuan, a 98.38% owned subsidiary as at 31 March 2019. As a result of the acquisition, the Group owned 100% equity interests in this subsidiary since then, details of which were set out in the Company's announcement dated 15 August 2019.

An analysis of the effects of changes in shareholdings in Zhejiang Anxian Yuan on the consolidated equity attributable to the owners of the Company during the year ended 31 March 2020 was as follows:

	HK\$'000
Net assets attributable to 1.62% equity interests	7,825
Less: Cash consideration paid for 1.62% equity interests	(6,652)
	<hr/>
Increase in equity attributable to owners of the Group (included in other reserve)	1,173

32. SHARE OPTION SCHEME

During the year, the Company operates share option schemes on 28 August 2018 (the "2018 Share Option Scheme").

The 2018 Share Option Scheme was adopted on 28 August 2018 (the "2018 Adoption Date") for the purpose of providing incentives or rewards to eligible persons who contribute to the success of the Group's operations. Eligible persons of the 2018 Share Option Scheme include any full-time or part-time employee of the Company or any members of the Group, including any Executive Director, Non-executive Director and Independent Non-executive Director, adviser, consultant of the Company or any the subsidiaries.

The total number of shares which may be issued upon the exercise of all options to be granted under the 2018 Share Option Scheme and other schemes must not, in aggregate, exceed 10% of the shares in issue as at the 2018 Adoption Date as altered by the capital reorganisation undertaken by the Company which became effective on 29 August 2018 (the "2018 Scheme Mandate Limit"). The total number of shares issued and to be issued upon exercise of the options granted to a participant under the 2018 Share Option Scheme and other schemes (including both exercised and outstanding options) in any 12-month period must not exceed 1% of the shares in issue from time to time. Where any further grant of options to a participant (the "Further Grant") would result in the shares issued and to be issued upon exercise of all options granted and to be granted under the 2018 Share Option Scheme and other schemes to such participant (including exercised, cancelled and outstanding options) in the 12-month period up to and including the date of the Further Grant representing in aggregate over 1% of the shares in issue from time to time, the Further Grant must be separately approved by the shareholders in general meeting with such participant and his close associates (as defined in the Listing Rules) (or his associates (as defined in the Listing Rules) if the participant is a connected person) abstaining from voting.

Notwithstanding the foregoing, the Company may not grant any option if the number of shares which may be issued upon exercise of all outstanding options granted and yet to be exercised under the 2018 Share Option Scheme and other schemes exceeds 30% of the shares in issue from time to time.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 March 2021

32. SHARE OPTION SCHEME (CONTINUED)

The board of directors may, at its discretion, invite any eligible persons to take up options at a price calculated as mentioned below. Upon acceptance of the option, the eligible person shall pay HK\$1.00 to the Company by way of consideration for the grant. The option will be offered for acceptance for a period of 28 days from the date on which the option is granted.

The 2018 Share Option Scheme will be valid and effective for a period of ten years commencing on the date of approval of the 2018 Share Option Scheme (i.e. 28 August 2018), after which period no further options may be granted but the provisions of the 2018 Share Option Scheme shall remain in full force and effect in all other respects and options granted during the life of the 2018 Share Option Scheme may continue to be exercisable in accordance with their terms of issue.

The exercise price for the shares subject to options will be a price determined by the Board and notified to each participant and must be at least the highest of (i) the closing price of the shares as stated in the Stock Exchange's daily quotations sheet on the date of grant of the options, which must be a trading day; and (ii) the average closing price of the shares as stated in the Stock Exchange's daily quotations sheets for the five trading days immediately preceding the date of grant of the options.

All share-based compensation will be settled in equity. The Group has no legal or constructive obligation to repurchase or settle the options other than by issuing shares. The share options do not confer rights on the holders to dividends or to vote at Shareholders' meetings.

During the year ended 31 March 2021, no (2020: Nil) share option has been granted under the 2018 Share Option Scheme. No (2020: Nil) share option was outstanding as at 31 March 2021.

39. FAIR VALUE AND FAIR VALUE HIERARCHY OF FINANCIAL INSTRUMENTS

Management has assessed that the fair values of cash and cash equivalents, trade receivables, trade payables, financial assets included in deposits and other receivables, loan to non-controlling shareholder and financial liabilities included in other payables and accruals approximate to their carrying amounts largely due to the short-term maturities of these instruments.

The fair values of the financial assets and liabilities are included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

The fair values of the lease liabilities and the non-current portion of interest-bearing bank and other borrowings have been calculated by discounting the expected future cash flows using rates currently available for instruments with similar terms and characteristic, credit risk and remaining maturities. The Group's own non-performance risk for lease liabilities and interest-bearing bank and other borrowings as at 31 March 2021 was assessed to be insignificant.

Note: The Group's unlisted equity securities at fair value is denominated in RMB and the fair value is determined by using valuation technique of market approach, which includes unobservable inputs that are not based on observable market data (note 16).

The movements in fair value measurements in Level 3 during the year are as follows:

	2021 HK\$'000	2020 HK\$'000
Financial assets at fair value through other comprehensive income – Unlisted equity securities		
At beginning of the year	2,666	2,332
Fair value change	(1,809)	476
Exchange realignment	216	(142)
At end of the year	1,073	2,666

The fair value of the unlisted equity securities is Level 3 recurring fair value measurement. During the year ended 31 March 2021, there have been no (2020: Nil) transfers of fair value measurements between Level 1 and Level 2 and no transfers into or out of Level 3.

40. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Group is exposed to financial risks through its use of financial instruments in its ordinary course of operations and in its investment activities.

The Group does not have written risk management policies and guidelines. Generally, the Group employs a conservative strategy regarding its risk management. Financial risk management is coordinated at the Group's headquarter, in close co-operation with the board of directors periodically. Overall objectives in managing financial risks focus on securing the Group's short to medium term cash flows by minimising its exposure to financial markets. Long term financial investments are managed to generate lasting returns with acceptable risk levels. As the Group's exposure to market risk (including currency risk and interest rate risk), credit risk and liquidity risk are kept at a minimum level, the Group has not used any derivative or other instruments for hedging purposes. The Group does not hold or issue derivative financial instruments for trading purposes. The most significant financial risks to which the Group is exposed are discussed below.

It is, and has been throughout the year under review, the Group's policy that no trading in financial instruments shall be undertaken.

40. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTINUED)

The main risks arising from the Group's financial instruments are interest rate risk, foreign currency risk, credit risk and liquidity risk. The board of directors reviews and agrees policies for managing each of these risks and they are summarised below.

(i) Interest rate risk

Interest rate risk relates to the risk that the fair value or cash flows of a financial instrument will fluctuate because of changes in market interest rates.

The Group has interest-bearing assets (cash at banks (note 23) and loan to non-controlling shareholder (note 22)) and interest-bearing liabilities (bank and other borrowings (note 27)) carried at effective interest rates with reference to the market. The Group's income and operating cash flows are substantially independent of changes in market interest rates. The Group has not used any financial instrument to hedge potential fluctuations in interest rates. The exposure to interest rates for the Group's cash at banks and loan to non-controlling interest is considered minimal.

The following table demonstrates the sensitivity to a reasonably possible change in interest rates of increase or decrease in 50 basis points (2020: 50 basis points), with all other variables held constant, of the Group's profit before tax (through the impact on floating rate borrowings). There is no impact on the Group's equity except for retained profits.

	(Decrease)/Increase in profit before tax and retained profits HK\$'000	
31 March 2021	(492)	492
31 March 2020	(751)	751

(ii) Foreign currency risk

Foreign currency risk refers to the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign currency rates.

The Group's business transactions, assets and liabilities are denominated in HK\$ and RMB and the functional currencies of the Group's principal operating entities are HK\$ and RMB.

The Group currently does not have foreign currency hedging policy in respect of foreign currency transactions, assets and liabilities. The Group monitors its foreign currency exposure closely and considers hedging significant foreign currency exposure should the need arise. The Company did not have significant exposure to foreign currency risk both at 31 March 2021 and 2020.

The policies to manage foreign currency risk have been followed by the Group since prior years and are considered to be effective.

40. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTINUED)

(iii) Credit risk

Credit risk refers to the risk that the counterparty to a financial instrument would fail to discharge its obligation under the terms of the financial instrument and cause a financial loss to the Group. The Group's exposure to credit risk mainly arises from granting credit to customers in the ordinary course of its operations and from its investing activities.

The carrying amounts of financial assets at amortised cost presented in the consolidated statement of financial position are net of impairment losses, if any. The Group minimises its exposure to the credit risk by rigorously selecting the counterparties, performing ongoing credit evaluation on the financial conditions of its debtors and tightly monitoring the ageing of the receivables.

Follow-up actions are taken in case of overdue balances on an ongoing basis. In addition, management monitors and reviews the recoverable amount of the receivables individually or collectively at each reporting date to ensure that adequate losses allowances are made for irrecoverable amounts. It is not the Group's policy to request collateral from its customers.

The Group's exposure to credit risk is influenced mainly by the individual characteristics of each customer. The default risk of the industry and country in which customers operate also has an influence on credit risk but to a lesser extent. At the end of the reporting period, the Group had certain concentrations of credit risk as 44% (2020: 27%) and 59% (2020: 45%) of the Group's trade receivables were due from the Group's largest customer and the five largest customers, respectively, within the cemetery business segment. However, management of the Group closely monitors the progress of collecting the payments from the customers and reviews the overdue balances regularly. In this regard, the directors of the Company consider that the Group's credit risk is significantly reduced.

The Group measures loss allowances for trade receivables at an amount equal to lifetime ECLs, which is calculated using a provision matrix. As the Group's historical credit loss experience does not indicate significantly different loss patterns for different customer segments, the loss allowance based on past due status is not further distinguished between the Group's different customer bases.

ECL rates are based on actual loss experience. These rates are adjusted to reflect differences between economic conditions during the period over which the historic data has been collected, current conditions and the Group's view of economic conditions over the expected lives of the receivables. The Group concluded that ECL rates and the impact of ECLs on trade receivables are insignificant as at 31 March 2021 and 2020.

Other financial assets at amortised cost of the Group includes deposits and other receivables, loan to non-controlling shareholder and cash and cash equivalents. Since there is no increase in credit risk, the loss allowance recognised during the year was therefore limited to 12-month ECLs. Management considers the probability of default is low on deposits and other receivables and loan to non-controlling shareholder since the counterparties are in good credit quality and no historical default noted. Besides, management considers the probability of default is low on bank balances since they are placed at the financial institutions with good credit rating. The Group concluded that there is no significant impact of ECLs on other financial assets at amortised cost as at 31 March 2021 and 2020.

As at 31 March 2021 and 2020, there is no financial guarantees issued by the Group.

40. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTINUED)

(iv) Liquidity risk

Liquidity risk relates to the risk that the Group will not be able to meet its obligations associated with its financial liabilities that are settled by delivering cash or other financial assets. The Group is exposed to liquidity risk in respect of settlement of trade payables, other payables and accruals, amount due to non-controlling shareholder, bank and other borrowings and also cash flow management. The Group's objective is to maintain an appropriate level of liquid assets and committed credit lines of funding to meet its liquidity requirements in the short and longer term.

The Group manages its liquidity needs on a consolidated basis by carefully monitoring the cash inflows and outflows due in day to day business. Liquidity needs are monitored in various time bands, on day to day and week to week basis. Long-term liquidity needs for 180-day and 365-day lookout periods are identified monthly.

The Group's liquidity is mainly dependent upon the cash received from its trade customers and fund raising activities. The directors of the Company are satisfied that the Group will be able to meet in full its financial obligations as and when they fall due in the foreseeable future.

The liquidity policies have been followed by the Group since prior years and are considered to have been effective in managing liquidity risks.

The maturity profile of the Group's financial liabilities as at the end of the reporting period, based on the contractual undiscounted payments, is as follows:

	Within 1 year or on demand HK\$'000	More than 1 year HK\$'000	Total contractual undiscounted cash flows HK\$'000	Carrying amount HK\$'000

Capital management

The primary objectives of the Group's capital management are to safeguard the Group's ability to continue as a going concern and to provide an adequate return to shareholders by pricing goods and services commensurately with the level of risk.

The Group manages its capital structure to ensure optimal capital structure and shareholder returns, taking into consideration the future capital requirements of the Group, prevailing and projected capital expenditures and projected strategic investment opportunity and makes adjustments to it in light of changes in economic conditions and the risk characteristics of the underlying assets. To maintain or adjust the capital structure, the Group may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares. The Group is not subject to any externally imposed capital requirements. No changes were made in the objectives, policies or processes for managing capital during the years ended 31 March 2021 and 2020.

The Group regards total equity attributable to the owners of the Company presented on the face of the consolidated statement of financial position as capital, for capital management purposes. The amount of capital as at 31 March 2021 was approximately HK\$936,045,000 (2020: HK\$680,328,000), which management considers as optimal having considered the projected capital expenditures and the forecast strategic investment opportunities.

The Group is not subject to externally imposed capital requirements.
